

Pioneer Square natural gas construction look-ahead (Week of July 29, 2013)

During the week of July 29, PSE's natural gas contractor, Michels Corporation, will continue their work to relocate the high pressure natural gas pipeline in preparation for the City's Alaskan Way Viaduct Replacement Program. Below is an outline of what to expect and a map of impacted streets.

Work will include...

- Open trenching, installing pipe and paving on Western Ave, moving south throughout the week
- Potholing, installing pipe and paving at the intersection of Yesler Way and Occidental Ave, moving south on Occidental throughout the week
- Staging equipment and materials along the south side of James and along the east side of Occidental

Work hours will be....

- Between 7 a.m. and 3 p.m.

Parking will be impacted on....

- Madison St, between Alaskan Way and Western Ave
- Western Ave, between Madison St and Marion St
- South side of James
- East side of Occidental south of Yesler
