## How do you keep a gas system safe? "Sniff" for risks!

Every day, technicians venture out across our service area to inspect our nearly 26,000 miles of natural gas pipeline. Carrying sensitive sniffers, these techs walk over gas mains in the street and service lines that extend to your house. They check for leaks and inspect the general condition of above-ground facilities, such as meters. Our service partner, Hydromax USA, is conducting this work. You may see these employees in specially equipped white vans bearing both the Hydromax USA and PSE logos.
