

COMMUNITY WORKSHOP AND MEETING ON PSE ELECTRIC SYSTEM UPGRADE ON BAINBRIDGE ISLAND

Puget Sound Energy invites you to participate in a community workshop to discuss siting of our new substation and transmission lines on Bainbridge Island. Since the proposed project is located in your immediate area, we value your input regarding siting and design of these facilities. Following the workshop, PSE will hold an open house to share discussion results with the general public.

Space in the workshop is limited. Please RSVP at 425-456-2848 no later than April 10.

Refreshments provided

Monday, April 20, 2009

Workshop: 3:30 – 6 p.m.

Community meeting: 6:30 – 8:30 p.m.

Bainbridge Island Commons

370 Brien Drive SE, Bainbridge Island
