Original Sheet No. 1270

---

PUGET SOUND ENERGY (T)  
NATURAL GAS SCHEDULE NO. 270 (C)  
NATURAL GAS ENERGY EFFICIENCY PROGRAM (C)  
Local Infrastructure and Market Transformation and Research Support (C)

Section 1: Availability

To organizations, associations or projects engaged in activities to provide education, market research, and/or services to develop long term energy-efficiency products and practices which are designed to achieve long term therm savings benefits for Customers receiving bundled natural gas service under residential or commercial rate schedules in the Company's natural gas tariff. (C)

Section 2: Measures

Measures to be delivered may be developed on a project-by-project basis, primarily dealing with education about energy efficiency and information about the Company's energy efficiency services and products. Measures may include participation in conferences, energy efficiency research, and trade shows aimed at reaching a broad array of Customers and trade allies. (C)  
Unique, small scale demonstration projects or engineering pilot tests of Measures not included in current programs may be eligible, at the Company's discretion. (C)

Section 3: Analysis

Under this program the Company may receive Non-quantifiable Benefits (or Costs), indirect, or longer term therm savings benefits, which are difficult to measure in the short term. Support will be based on the ability to provide effective education and information on natural gas energy savings to a wide variety of Customers, in order to enhance the overall effectiveness of the Company's gas Energy Efficiency Programs. (C)

Section 4: Services

The Company may provide financial support for energy efficiency activities available to, or projects designed to benefit the Company's Customers, undertaken by local energy efficiency organizations and energy efficiency market research organizations.

The Company may provide support or fees to energy efficiency industry associations which help to educate and inform Customers and trade allies about energy efficiency benefits.

The Company may sponsor, support and participate in conferences, presentations and training as methods to develop and build an infrastructure for delivery of market-based energy efficiency products and services.
