HAND-DELIVERY

Mr. David Danner, Executive Director and Secretary
Washington Utilities and Transportation Commission
P.O. Box 47250
Olympia, Washington 98504-7250

**Re: Puget Sound Energy, Inc.
WN U-60, Tariff G, Electric Service, Advice No. 2009-11
WN U-2, Natural Gas Service, Advice No. 2009-12**

Dear Mr. Danner:

The Purpose of this Filing

Puget Sound Energy, Inc. ("PSE" or the "Company") is filing this general rate case

This filing requests an increase in rates to recover increased electric and gas revenue requirements of approximately \$148,148,000 million (7.4%) and \$27,199,117 million (2.2%), respectively, on an annual basis. The impact of the filing is described in greater detail in the Summary Documents, three copies of which are filed herewith as Addendum E. A summary of the relief the Company is requesting, the reasons the Company is seeking such relief, and an overview of the topics covered by each of the Company's witnesses is provided in the prefiled direct testimony of Mr. Eric Markell, Exhibit No. ____ (EMM-1CT), which is provided as part of this filing.

Please note with respect to the electric revenue requirement increase that the Company will update its projection of rate year power costs during the course of this proceeding. This update could result in an increase or decrease to the Company's total requested electric general rate case revenue deficiency. In addition, once this filing is suspended by the Commission and becomes an adjudicative proceeding, the evidence developed and ultimate findings and conclusions in the proceeding could produce

electric and gas revenue requirements that are higher or lower than the amounts requested in this initial filing.

Proposed Revised Tariff Sheets

Pursuant to RCW 80.28.060 and WAC 480-80-101 and WAC 480-80-105, the Company is providing three copies of the proposed revised tariff sheets of PSE listed below. These tariff sheets reflect issue dates of May 8, 2009, and effective dates of June 8, 2010.

WN U-60, Tariff G, Electric Service:

19 th Revision	Sheet No. 2	Index
29 th Revision	Sheet No. 7	Residential Service
4 th Revision	Sheet No. 7-b	Master Metered Residential Service (Continued)
27 th Revision	Sheet No. 24	General Service
16 th Revision	Sheet No. 25	Small Demand General Service
10 th Revision	Sheet No. 25-a	Small Demand General Service (Continued)
17 th Revision	Sheet No. 26	Large Demand General Service
23 rd Revision	Sheet No. 29	Seasonal Irrigation & Drainage Pumping Service
28 th Revision	Sheet No. 31	Primary General Service
22 nd Revision	Sheet No. 35	Seasonal Primary Irrigation & Drainage Pumping Service
4 th Revision	Sheet No. 40	Large General Service Greater Than 3 Amw
3 rd Revision	Sheet No. 40-a	Large General Service Greater Than 3 aMW (Continued)
3 rd Revision	Sheet No. 40-b	Large General Service Greater Than 3 aMW (Continued)
3 rd Revision	Sheet No. 40-c	Large General Service Greater Than 3 aMW (Continued)
19 th Revision	Sheet No. 43-a	Interruptible Primary Service For Total-Electric Schools (Continued)
28 th Revision	Sheet No. 46	High Voltage Interruptible Service
10 th Revision	Sheet No. 46-a	High Voltage Interruptible Service (Continued)
27 th Revision	Sheet No. 49	High Voltage General Service
27 th Revision	Sheet No. 50	Limited Street Lighting Service
18 th Revision	Sheet No. 52-a	Custom Lighting Service Company Owned (Continued)
7 th Revision	Sheet No. 52-b	Custom Lighting Service Company Owned (Continued)
15 th Revision	Sheet No. 53-a	Street Lighting Service Sodium Vapor (Continued)
12 th Revision	Sheet No. 53-b	Street Lighting Service Sodium Vapor (Continued)
6 th Revision	Sheet No. 53-c	Street Lighting Service Sodium Vapor (Continued)
28 th Revision	Sheet No. 54	Customer-Owned Street Lighting Energy Service Sodium Vapor
28 th Revision	Sheet No. 55	Area Lighting Service
10 th Revision	Sheet No. 55-a	Area Lighting Service (Continued)
25 th Revision	Sheet No. 57	Continuous Lighting Service
24 rd Revision	Sheet No. 58	Flood Lighting Service
12 th Revision	Sheet No. 58-a	Flood Lighting Service (Continued)
7 th Revision	Sheet No. 448-i	Power Supplier Choice (Continued)
8 th Revision	Sheet No. 449-i	Retail Wheeling Service (Continued)

Three copies of **Addendum A**, which contains the above electric tariff sheets formatted with the coding required by WAC 480-80-105, are enclosed. Three copies of **Addendum B**, which contains the above electric tariff sheets in legislative format as required by WAC 480-07-510(2), are also enclosed.

WN U-2, Natural Gas Service:

5 th Revision	Sheet No. 3-C	Index (Continued)
7 th Revision	Sheet No. 116-A	General Gas Lighting and Street Lighting Service (Optional) (Continued)
52 nd Revision	Sheet No. 123	Residential General Service
48 th Revision	Sheet No. 131	Commercial and Industrial General Service
1 st Revision	Sheet No. 131T	Distribution System Transportation Service (Firm-Commercial and Industrial)
54 th Revision	Sheet No. 141	Large Volume High Load Factor Gas Service (Optional)
1 st Revision	Sheet No. 141T	Distribution System Transportation Service (Firm-Large Volume High Load Factor)
1 st Revision	Sheet No. 141T-A	Distribution System Transportation Service (Firm-Large Volume High Load Factor) (Continued)
8 th Revision	Sheet No. 153-B	Propane Service (Continued)
2 nd Revision	Sheet No. 161-A	Special Standby and Auxiliary Heating Service (Continued)
21 st Revision	Sheet No. 171	Residential Water Heater Rental Service
22 nd Revision	Sheet No. 172	Large Volume Water Heater Rental Service
16 th Revision	Sheet No. 174	Gas Conversion Burner Rental Service
15 th Revision	Sheet No. 185-C	Interruptible Gas Service with Firm Option (Continued)
16 th Revision	Sheet No. 185-D	Interruptible Gas Service with Firm Option (Continued)
1 st Revision	Sheet No. 185T	Distribution System Transportation Service (Interruptible with Firm Option)
15 th Revision	Sheet No. 186-C	Limited Interruptible Gas Service with Firm Option (Optional) (Cont.)
14 th Revision	Sheet No. 186-D	Limited Interruptible Gas Service with Firm Option (Optional) (Cont.)
1 st Revision	Sheet No. 186T	Distribution System Transportation Service (Interruptible with Firm Option)
16 th Revision	Sheet No. 187-D	Non-Exclusive Interruptible Gas Service w/ Firm Option (Cont.)
1 st Revision	Sheet No. 187T	Distribution System Transportation Service (Non-Exclusive Interruptible with Firm Option)

Three copies of **Addendum C**, which contains the above natural gas tariff sheets formatted with the coding required by WAC 480-80-105, are enclosed. Three copies of **Addendum D**, which contains the above natural gas tariff sheets in legislative format as required by WAC 480-07-510(2), are also enclosed.

Additional Materials Submitted With This Filing

Also being provided with this filing are an original and 19 copies of the Company's prefiled direct testimony and exhibits supporting this general rate case filing. These materials will be offered into the record at the appropriate time and should not be considered evidence until so entered. For the convenience of the Commission and persons interested in this case, a list of these testimonies and the exhibits supported by each witness is provided as **Addendum F**.

We also provide three copies of supporting work papers and, in compliance with WAC 480-07-510(3)(i), we have also provided three copies of a Report of Affiliated Interest Transactions for the test year as **Addendum G**.

We have also enclosed CD ROMs with electronic copies of these materials where available.

Confidentiality Protections and Motion for Highly Confidential Protective Order

As is evident from PSE's filing, the Company has marked many pages "**CONFIDENTIAL**" and several pages "**HIGHLY CONFIDENTIAL**." These documents are currently protected from any further disclosure by the Commission or the Office of the Attorney General, including their outside experts, **pursuant to RCW 80.04.095 and WAC 480-07-160**. PSE's filing includes a motion and sworn statement requesting that the Commission issue a protective order with highly confidential provisions.

The Company therefore requests that the documents contained in the envelopes identified with the cover page marked "**CONFIDENTIAL PER WAC 480-07-160**" or "**HIGHLY CONFIDENTIAL PER WAC 480-07-160**," as well as the files marked "confidential" or "highly confidential" on the versions of the disks and CD ROMs containing confidential materials be treated as confidential under the provisions of WAC 480-07-160, as they each contain sensitive commercial information. In accordance with WAC 480-07-160(3)(c) the Company has enclosed redacted versions of the documents containing confidential information along with the nonconfidential documents in its filing, and has placed unredacted versions of the documents containing confidential information in separate envelopes with corresponding "**CONFIDENTIAL PER WAC 480-07-160**" or "**HIGHLY CONFIDENTIAL PER WAC 480-07-160**" labels on the envelopes. Each page of the unredacted version containing confidential information has been printed on yellow paper and each page containing highly confidential information has been printed on light blue paper.

CD ROMs containing confidential materials have also been appropriately identified. Please note that for the Commission's convenience, each CD ROM contains a complete set of the filing, except that the "Redacted" CD ROM does not contain any confidential or highly confidential files, the "Confidential" CD ROM contains all but the highly confidential files, and the "Highly Confidential" CD ROM contains all of the files.

The file names for each document identify whether the document is "confidential" or "highly confidential."

The Company, its customers, and/or the project owners and developers that submitted commercially sensitive information to PSE would be harmed by release of the confidential or highly confidential information. As detailed in PSE's motion for protective order submitted with this filing, some of the information related to the Company's resource acquisition process should not be viewed at all by persons involved in development of energy projects or resources. PSE has designated such material as "highly confidential" because it reflects confidential information that PSE received from project owners and developers that is commercially sensitive and/or because it reveals information about PSE's resource acquisition efforts, analyses or strategies that is commercially sensitive with respect to PSE's negotiations with such project owners or developers. To the extent any such persons or entities seek to intervene in this matter, they should not thereby be permitted access to "highly confidential" information.

Notice of General Rate Case Filing

Pursuant to WAC 480-07-510(5), the Company is serving copies of the Summary Documents on the persons listed on the Certificate of Service attached to this letter. A copy of the form of the cover letter and certificate of service for the parties noticed pursuant to WAC 480-07-510(5) are also provided in **Addendum H**.

Pursuant to WAC 480-100-194 and 480-90-194, PSE agrees to suspension of the proposed tariff filings and thus is not required to publish notice immediately prior to or coincident with the date of this transmittal letter and filing. The Company agrees to waive suspension hearing and requests that the Commission issue an order suspending these proposed changes for investigation and that a hearing to take testimony from the public will be scheduled at the prehearing conference. Accordingly, the Company will provide notice to the public pursuant to WAC 480-100-197 and 480-90-197. In accordance with WAC 480-100-193(1) and 480-90-193(1), the Company will also post the proposed changes to its tariff sheets for public inspection and review on its website, and will provide access via request by telephone or mail.

**SCHEDULE 7
RESIDENTIAL SERVICE**
(Single phase or three phase where available)

AVAILABILITY:

1. This schedule is limited to residential service, which means service that is delivered through one meter to a single-family unit and is used principally for domestic purposes, even though such service may incidentally be used for nondomestic purposes. Electric service for nondomestic use may be separately metered and served under the provisions of the applicable general service schedule, provided that such service does not include single-family units.
2. If this schedule is applied to transient occupancy in separately metered living units, billing shall be in the name of the owner on a continuous basis.
3. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
4. Space conditioning and water heating capacities shall be energized in increments of 6 KW or less by a thermostat, low voltage relay, or suitable time delay equipment.
5. Customers requiring three-phase service under this schedule will be required to contribute the incremental cost of three-phase facilities to provide such service.

MONTHLY RATE:

Basic Charge: \$7.59 single phase or \$18.70 three phase

(I)(I)

Energy Charge:

9.1275¢ per kWh for the first 600 kWh

11.0584¢ per kWh for all over 600 kWh

SCHEDULE 7A
MASTER METERED RESIDENTIAL SERVICE
(Secondary Voltage or at available Primary distribution Voltage)
(Single phase or three phase where available)

AVAILABILITY:

1. This schedule is limited to master metered residential service, which is service delivered through one meter to multiple single-family units located in a structure of four (4) or more stories that are above ground level. Electric Service must be used principally for domestic purposes, but may incorporate incidental non-domestic use. Electric service for non-domestic use may be separately metered and served under the provisions of the applicable general service schedule, provided that such service does not include single-family units.
2. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
3. Space conditioning and water heating capacities shall be energized in increments of 6 kW or less by a thermostat, low voltage relay, or suitable time delay equipment.
4. Customers requiring three-phase service under this schedule are responsible for the incremental costs of three-phase facilities to provide such service.

MONTHLY RATE – SECONDARY VOLTAGE:

Basic Charge: \$52.09 (I)

Demand Charge: No charge for the first 50 kW or less of Billing Demand

GENERAL SERVICE**
(Secondary Voltage)
(Single phase or three phase where available)
(Demand of 50 kW or less)

AVAILABILITY:

1. This schedule is available to any Customer for general electric energy requirements other than Residential Service (as defined in Paragraph 1 of Schedule 7) and whose estimated or actual Demand is 50 kW or less.
2. Customers whose metered Demand exceeds 50 kW twice during the most recent 12 consecutive months are not eligible for service under this schedule.
3. Customers with less than 12 months billing history and Billing Demand over 50 kW twice are not eligible for service under this schedule.
4. The Company shall not cause customers who are principally residential and were taking service under this schedule on or before September 17, 1983, to take service under Schedule 7 of this tariff.
5. Deliveries at more than one point will be separately metered and billed.
6. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
7. Highly intermittent loads such as welders, X-ray machines, elevators, and similar loads which may cause undue lighting fluctuation shall not be served under this schedule unless approved by the Company.

MONTHLY RATES:

Basic Charge: \$9.83 single phase or \$24.98 three phase

SCHEDULE 25
SMALL DEMAND GENERAL SERVICE
(Secondary Voltage)
(Single phase or three phase where available)
(Demand Greater than 50 kW but less than or equal to 350 kW)
(Continued)

Reactive Power Charge: 0.285¢ per reactive kilovolt ampere-hour (KVARH)

(I)

ADJUSTMENTS:

Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply.

BILLING DEMAND:

The highest Demand established during the month.

REACTIVE POWER CHARGE:

The reactive power charge shall apply to only those electric loads with a maximum Demand of 100 KW or higher. The meter used for the measurement of KVARH shall be ratcheted to prevent reverse registration.

GENERAL RULES AND PROVISIONS:

Service under this schedule is subject to the General Rules and Provisions contained in this tariff.

1. This schedule is available to any Customer for general electric energy requirements other than Residential Service (as defined in Paragraph 1 of Schedule 7) and whose estimated or actual Demand is greater than 350 kW.
2. Customers taking service at Secondary Voltage and whose Billing Demand is 350 kW or below for eleven (11) of the most recent 12 consecutive months are not eligible for service under this schedule.
3. Deliveries at Secondary voltage at more than one point will be separately metered and billed. Deliveries at Primary voltage to a Customer will be at one Point of Delivery for all service to that Customer on contiguous property.
4. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company.
5. Highly intermittent loads, such as welders, X-ray machines, elevators, and similar loads that may cause undue lighting fluctuation, shall not be served under this schedule unless approved by the Company.
6. For service at Primary voltage, all necessary wiring, transformers, switches, cut-outs and protection equipment beyond the Point of Delivery shall be provided, installed and maintained by the Customer, and such service facilities shall be of types and characteristics acceptable to the Company. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by Company engineers.

MONTHLY RATE – SECONDARY VOLTAGE:

Basic Charge:	\$108.37			(I)
Demand Charge:	<u>OCT-MAR</u>	<u>APR-SEP</u>	per kW of Billing Demand	(I)(I)
	\$8.97	\$5.98		
Energy Charge:	6.6619¢ per kWh			(I)
Reactive Power Charge:	0.129¢ per reactive kilovolt ampere-hour (kvarh)			(I)

ADJUSTMENTS TO SECONDARY VOLTAGE RATES FOR DELIVERY AT PRIMARY VOLTAGE:

Basic Charge:	\$237.03 in addition to Secondary voltage rate	(I)
Demand Charge:	\$0.15 credit per kW to all Demand rates	(T)(R)
Energy Charge:	2.0% reduction to all Energy and Reactive Power Charges	(R)

ADJUSTMENTS:

Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply.

SCHEDULE 29
SEASONAL IRRIGATION & DRAINAGE PUMPING SERVICE
(Single phase or three phase where available)

AVAILABILITY:

1. This schedule applies to any Customer whose seasonal electric energy requirements are used exclusively for the purpose of irrigation and/or drainage pumping of water on agricultural land used in production of plant crops, and who requires service at secondary voltage. To be eligible for service under this schedule, customers must be qualifying agricultural irrigation or drainage pumping customers pursuant to the Bonneville Power Administration's General Rate Schedule Provisions.
2. Usage must be measured at the point of delivery and deliveries at more than one point will be separately metered and billed.
3. Single-phase motors rated greater than 7-1/2 HP shall not be served under this schedule except by the express written approval of the Company
4. Power loads which may cause undue fluctuations in electric service shall not be served under this schedule unless approved by the Company.

MONTHLY RATE:

Basic Charge: \$9.83 single phase or \$24.98 three phase (I)(I)

Demand Charge: No charge for the first 50 kW or less of Billing Demand

<u>OCT-MAR</u>	<u>APR-SEP</u>		
\$8.91	\$4.39	per kW for all over 50 kW of Billing Demand	(I)(I)

Energy Charge:

<u>OCTOBER-MARCH</u>		
9.1971¢ per kWh for the first 20,000 kWh		(I)
7.0248¢ per kWh for all over 20,000 kWh		(I)
<u>APRIL-SEPTEMBER</u>		
6.4239¢ per kWh for the first 20,000 kWh		(I)
5.5280¢ per kWh for all over 20,000 kWh		(I)

Reactive Power Charge: 0.283¢ per reactive kilovolt ampere-hour (kvarh) (I)

**SCHEDULE 31
PRIMARY GENERAL SERVICE**

(Single phase or three phase at the available Primary distribution voltage)

AVAILABILITY:

This schedule applies to all service to contiguous property supplied through one meter where:

1. The customer requires primary voltage to operate equipment other than transformers; or
2. The customer requires distribution facilities and multiple transformers due to loads being separated by distances that preclude delivery of service at secondary voltage; or
3. The load is at a remote or inaccessible location that is not feasible to be served at secondary voltage from Company facilities.
4. All necessary wiring, transformers, switches, cut-outs and protection equipment beyond the point of delivery shall be provided, installed and maintained by the Customer, and such service facilities shall be of types and characteristics acceptable to the Company. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by Company engineers.
5. Facilities that are being served under this schedule as of May 13, 1985, may, at the customer's option, retain service under this schedule.

MONTHLY RATE:

**SCHEDULE 40
LARGE GENERAL SERVICE GREATER THAN 3 aMW**

(Single phase or three phase at the available Primary or Secondary distribution voltages)

AVAILABILITY:

1. This schedule does not apply to Customers taking service on Schedules 46, 49, 448, or 449 but is mandatory for all other Customers with over 3 Average MW of load on a non-dedicated distribution feeder (or substation when, but for the feeder configuration, the customer would have 3 aMW of load on a distribution feeder) where:
 - a. for Customers not on Schedule 40 the 3 aMW of load has occurred during six (6) of the 12 months of a test year for any general rate case, or
 - b. for Customers already on Schedule 40 who have maintained a minimum of an average of 2 aMW over the entire test year of the most recent general rate case shall remain on Schedule 40. Customers who fall below this average will be removed from this Schedule on the date rates go into effect as a result of the applicable general rate case.
2. For Primary Service all necessary wiring, transformers, switches, cut-outs and protection equipment beyond the Point of Delivery shall be provided, installed and maintained by the Customer, and such service facilities shall be of types and characteristics acceptable to the Company. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by Company engineers prior to availability of service under this schedule.

MONTHLY RATES:

This tariff is for bundled retail service only and the Customer will be billed for the Basic Charge, Production and Transmission Charges, and Distribution Charges.

1. Basic Charge(s): applies to each metering point
 - Primary Voltage Metering Points: \$345.40
 - Secondary Voltage Metering Points with annual peak Demand <= 350 kW: \$52.09 (I)
 - Secondary Voltage Metering Points with annual peak Demand > 350 kW: \$108.37 (I)
2. Production and Transmission Charges:
 - a) Demand Charge: JAN-DEC
 - High Voltage Metering Point \$4.27 per kW of Coincident Billing Demand
 - Primary Voltage Metering Point \$4.36 per kW of Coincident Billing Demand (I)
 - Secondary Voltage Metering Point \$4.47 per kW of Coincident Billing Demand (I)
 - b) Energy Charge:
 - High Voltage Metering Point 5.7636¢ per kWh
 - Primary Voltage Metering Point 5.8638¢ per kWh (I)
 - Secondary Voltage Metering Point 6.0234¢ per kWh (I)

Issued: May 8, 2009

**PUGET SOUND ENERGY
Electric Tariff G**

**SCHEDULE 40
LARGE GENERAL SERVICE GREATER THAN 3 aMW**

(Single phase or three phase at the available Primary or Secondary distribution voltages)
(Continued)

- c) Reactive Power Charge:
- | | | |
|----------------------------------|--|-----|
| Primary Voltage Metering Point | 0.108¢ per reactive kilovolt ampere-hour (kvarh) | (I) |
| Secondary Voltage Metering Point | 0.129¢ per reactive kilovolt ampere-hour (kvarh) | (I) |

3. Distribution Charges: The following Distribution Charges are applicable to Customers on Schedule 40 at the time the Commission approves the Distribution Charges in this Section 3 in a general rate case and to incremental new load through an existing Point of Delivery on an existing feeder of a Customer currently receiving service under Schedule 40.

Demand Charge: Customer specific charge calculated by dividing the distribution costs (calculated according to the following procedures) by the estimated annual peak Coincident Billing Demand. The Demand charge will not be recalculated between rate cases for new load on existing feeders of Customers already on this schedule.

- a) Customers share of substation costs calculated as:
- The Customer's Demand on the substation divided by the total Demand on the substation multiplied by:
 - Substation Base Costs calculated using net book value at the time the Customer goes on to Schedule 40 multiplied by:
 - The sum of the Substation Fixed Charge Rate, the Substation O&M Charge Rate and the A&G Charge Rate as shown in A., B., and C. below.
 - Substation Fixed Charge Rate, as derived from the Fixed Charge Rate Model, based upon the dollar-weighted average remaining life of the substation equipment and 12.9719% for land, (I)
 - Substation O&M Charge Rate of: 3.9808%, (R)
 - A&G Charge Rate of 35% of the O&M rate, which is 1.3933% for substation costs. (I)(I)
 - The Substation Base Cost, the Substation Fixed Charge Rate, the Substation O&M Charge Rate and the A&G Charge Rate in general rate cases following a Customer first going on Schedule 40, will be adjusted as follows:
 - Substation Base Costs will be adjusted for substation equipment retired, and
 - the cost for new equipment will be added. The formula described in section 3.a)i. will then be applied to the updated Substation Base Costs
 - The Substation Fixed Charge Rate will be adjusted for changes in the cost of capital and capital structure, taxes and insurance.
 - The Substation O&M Charge Rate will be adjusted based on the ratio of substation O&M to substation plant.
 - The A&G Charge Rate will be a function of the ratio of the distribution A&G to distribution O&M.

SCHEDULE 40
LARGE GENERAL SERVICE GREATER THAN 3 aMW
(Single phase or three phase at the available Primary or Secondary distribution voltages)
(Continued)

- b) Customer's share of Primary distribution lines calculated as:
- i. The estimated net book value per mile of each distribution feeder and associated distribution facilities on which the Customer has over 3 aMW of load multiplied by:
 - ii. The number of miles on each distribution feeder between the Customer's meter(s) and the substation for each distribution feeder on which the Customer has over 3 aMW of load (the "Distribution Base Cost") multiplied by:
 - iii. The Customer's share of the peak load on the distribution feeder multiplied by:
 - iv. The sum of the Distribution Fixed Charge Rate and the Distribution O&M Charge Rate as shown in A. and B. below
 - A. Distribution Fixed Charge Rate, as derived from the Fixed Charge Rate Model, based upon the average remaining life of the feeder(s) used in the calculation of the Distribution Base Cost
 - B. Distribution O&M Charge Rate of: 4.24% (R)
 - v. The Distribution Base Cost, the Distribution Fixed Charge Rate and the Distribution O&M Charge Rate in general rate cases following a Customer first going on Schedule 40, will be adjusted as follows:
 - A. Distribution Base Costs will be adjusted for estimates of any plant on the feeder(s) serving the Customer that has been retired and
 - B. the cost for new investment to the feeder(s) serving the Customer will be added. The formula described in section 3.b)iii (above) will then be applied to the updated Distribution Base Costs.
 - C. The Distribution Fixed Charge Rate will be adjusted based on changes in the cost of capital and capital structure, taxes and insurance.
 - D. The Distribution O&M Charge Rate will be adjusted based on the ratio of distribution O&M to distribution plant.
- c) Customer's allocation of line transformer costs where service is at Secondary voltage and/or where the Company has agreed to provide rental transformers where the service is at Primary voltage
- i. Based upon the Transformer Rental Schedule

SCHEDULE 40
LARGE GENERAL SERVICE GREATER THAN 3 aMW
(Single phase or three phase at the available Primary or Secondary distribution voltages)
(Continued)

- 4. Distribution Charges: The following Distribution Charges are applicable to existing Schedule 40 Customers who add new service through a new Point of Delivery from a feeder through which the Schedule 40 Customer currently receives service at an existing Point of Delivery. (For incremental new load through an existing Point of Delivery on an existing feeder of a Customer currently receiving service under Schedule 40, the Distribution Charge calculated in Section 3 of this Schedule applies.) The following Distribution Charges also apply to new Schedule 40 Customers prior to calculation of the Distribution Charge applicable under Section 3 of this Schedule.
 - a) Customer specific Monthly Distribution Charge calculated by multiplying the monthly Energy usage by the applicable rate(s):
 - i. Primary Voltage consumption: \$0.014815 / kWh
 - ii. Secondary Voltage consumption (> 350 kW peak Demand): \$0.009990 / kWh
 - iii. Secondary Voltage consumption (<= 350 kW peak Demand): \$0.014197 / kWh

(l)
|
(l)

ADJUSTMENTS:

Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply.

COINCIDENT BILLING DEMAND:

Coincident Demand and Coincident Billing Demand refers to the coincident monthly 15 minute peak Demand of the Customer's meters for all accounts that qualify for Schedule 40 on the distribution feeder(s).

Billing Months of December through March: the highest Coincident Demand established during the Month shall be used for billing. Billing Months of April through November: the highest Coincident Demand established during the Month, but not less than 60 per cent of the highest Coincident Demand established during the previous peak winter season (billing Months of December through March) shall be used for billing.

Coincident Billing Demand will be calculated from interval metering where the Company determines that this would be cost effective; otherwise it will be the billed Demand adjusted for a coincidence factor established from a Customer study performed by the Company.

REACTIVE POWER CHARGE:

The reactive power charge shall apply only to those meters where the annual peak load is over 50 kW.

**SCHEDULE 43
INTERRUPTIBLE PRIMARY SERVICE FOR TOTAL-ELECTRIC SCHOOLS**
(Single phase or three phase at the available Primary distribution voltage)
(Continued)

MONTHLY RATE:

Basic Charge:	\$345.40	(l)
Demand Charge:		
Plus	\$4.84 per kW of Billing Demand	(l)
	\$3.95 per kW of Critical Demand established in the preceding 11 months	(l)
Energy Charge:	5.8854¢ per kWh	(l)
Reactive Power Charge:	0.305¢ per reactive kilovolt ampere-hour (kvarh)	(l)

ADJUSTMENTS:

Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply.

BILLING DEMAND:

The highest Demand established during the month.

CRITICAL DEMAND:

The highest average 15-minute demand recorded between 5:00 p.m. and 8:00 p.m. on any day the customer has been notified by the Company that power interruption is required, less a demand credit allowed at the rate of .6 watts per square foot of structure.

REACTIVE POWER CHARGE:

The reactive power charge shall apply to only those electric loads with a maximum monthly Demand of 100 kW or higher. The meter used for the measurement of kvarh shall be ratcheted to prevent reverse registration.

GENERAL RULES AND PROVISIONS:

Service under this schedule is subject to the General Rules and Provisions contained in this tariff.

**SCHEDULE 46
HIGH VOLTAGE INTERRUPTIBLE SERVICE**
(Three phase, delivery voltage of 50,000 volts or higher)

AVAILABILITY:

1. This schedule applies to service that may be interrupted at the request of the Company to maintain or manage the integrity of its electrical system or to assist the Company in the management of energy supplies and resources for economic or other purposes subject to the terms and conditions described below.
2. Customer taking service under this Schedule must anticipate 210 hours of service interruption annually, as described in subsequent sections of this schedule.
3. Separate voltage arrangements with individual customers may be required in instances where available high voltage delivery voltages are subject to change in accordance with the Company's programs for system improvements.
4. All necessary wiring, transformers, switches, cut-outs, and protection equipment beyond the Point of Delivery shall be provided, installed, and maintained by the Customer, and such service facilities shall be of types and characteristics acceptable to the Company. The entire service installation, protection coordination, and the balance of the load between phases shall be approved by Company engineers.

MONTHLY RATE:

Demand Charge \$2.17 per kVa of Billing Demand

HIGH VOLTAGE INTERRUPTIBLE SERVICE
(Three phase, delivery voltage of 50,000 volts or higher)
(Continued)

ANNUAL MINIMUM CHARGE:

The sum of the monthly bills in any period of twelve (12) consecutive months shall not be less than \$26.04 per kVa of the maximum Billing Demand established plus 5.1872¢ per kWh consumed during the period.

(I)(I)

INTERRUPTION OF SERVICE:

1. Times and Durations of Interruptions: Electric Service shall be interrupted and suspended by Customer, as directed by the Company, between the hours of 8:00 a.m. and 12:00 noon and between 5:00 p.m. and 8:00 p.m. Monday through Saturday. Subject to paragraph 3 below, the duration of such interruption and suspension ("Suspension Period") shall be specified in the Company's notice to the Customer to initiate and maintain such interruption and suspension.
2. Notice Prior to Suspension Period: The Company shall provide the Customer reasonable advance notice of a Suspension Period; provided, however Company will provide Customer at least 14 hours advanced notice of a Suspension Period when such service interruption is for the Company to economically manage its energy supplies and resources. When Company notifies Customer of a service interruption for the Company to economically manage its energy supplies and resources, Company will provide customer with a non-binding estimate of the penalty per kWh to be assessed if Customer fails to interrupt and suspend service..
3. Limitations on Service Interruptions: Customer will not be required to interrupt and suspend Electric Service under this Schedule for more than 210 hours during any twelve-month period commencing on October 1 of each year; provided, however, no Customer will be required to interrupt and suspend Electric Service pursuant to this Schedule for more than 182 hours during any such twelve-month period for the sole purpose of Company management of energy supplies and resources for economic purposes. This maximum of 182 hours of interruption for Company management of energy supplies and resources for economic purposes shall also include hours used to test Customer's preparedness to interrupt and suspend service; provided, however, the Company will not institute any more than two such tests during the twelve month period.

Availability Of Option A Facilities Charge:

Option A is available to all Customers except, Option A is not available to homeowner or condo associations or similar organizations until the homes or condos have been fully built-out and occupied. At any time the Company may require that the Customer provide sufficient security up to the amount of the Estimated Installed Cost in a form and for a term acceptable to the Company. Any Customer wishing to discontinue service (including changing of account responsibility) must pay the unamortized balance of the Estimated Installed Cost at the time service is discontinued.

SPECIAL TERMS AND CONDITIONS:

1. Notification of Inoperable Lights: For lights where the Company provides routine maintenance, it shall be the responsibility of the Customer to notify the Company of Custom lights that are not working. Upon notification, within seventy-two (72) hours, excluding Saturdays, Sundays and holidays, the Company will investigate and take corrective action if such action is the responsibility of the Company. If such Company investigation/corrective action is not taken within seventy-two (72) hours for each such light, the Customer's billing shall be credited an amount equal to the monthly Lamp Charges normally billed for that light. This seventy-two (72) hour guarantee of service is in lieu of the provisions of Schedule 130 which are not available under this schedule. The Company will be excused from providing maintenance service within seventy-two (72) hours in the event of significant adverse events, such as storms, earthquakes, or other events beyond the Company's control including those enumerated in Schedule 80, paragraph 12.a. of this tariff.
2. Hours of service: Service under this schedule is for dusk-to-dawn lighting, or lighting service for the average number of hours of darkness per month (approximately 4,200 hours per year).

**SCHEDULE 53
STREET LIGHTING SERVICE (Continued)**

- 4. Removal, Relocation or Modification of Lighting Facilities: Lighting facilities will be removed, turned off, relocated or modified only after receipt of a letter signed by the Customer or its assignee who is in authority to order such action. Only the Company may remove, relocate or modify Company-owned lighting facilities. Modification includes changes in type of lighting fixture or changes in bracket length or mounting height due to Customer, city, county or state requests or requirements. Requests for removal and subsequent re-installation of a lighting fixture in order to meet applicable ordinances or law pertaining to the type of lighting facilities or requirements for bracket length or mounting height will be considered a modification for the purposes of charges herein. Relocation includes relocation of supporting poles and conversion of the serving distribution facilities to underground due to Customer, city, county or state request or requirement. In advance of any removal, relocation or modification, the Customer shall pay an amount equal to the estimated cost of such removal, relocation or modification. This estimated charge shall include the cost of removal of facilities that now serve lighting load only. All facilities installed or removed remain the sole property of the Company. The cost of removal, relocation or modification also includes any costs of traffic control or other associated costs. Charges for relocation or modification apply to all lights of any age. Charges for removal apply to lights that are (a) installed after June 1, 1998, and (b) have been in service for less than 25 years and (c) are removed (i) due to Customer request or (ii) because there is no longer a Customer to accept service. Where there is no longer a Customer to accept service, the removal will be considered a removal requested by the last Customer of record for the purposes of assessing the charges contained in this schedule.
- 5. Installation Costs - Charge Upon Removal: In addition to the charge for the cost of the removal, the following charges apply:
 - a. If a light installed after June 1, 1998, is to be removed and has been installed for less than ten (10) years, a charge equal to the total original estimated installed cost less (i) any up-front customer contribution toward the cost of salvageable items and (ii) estimated salvage value of the facilities removed.
 - b. Transfer to Company: If lights are transferred to Company ownership for nominal compensation, the charges in a. above will not apply.

CUSTOMER OWNED LIGHTS - SPECIAL TERMS AND CONDITIONS:

- Installation and Maintenance: A system installed and wholly owned by the Customer shall conform to the Company's specifications for such type of system in effect at the time of installation and shall be installed without expense to the Company. The Customer shall be responsible for providing the entire lighting system including the initial lamp of a type and wattage reflected in this schedule and the initial photocell. The Customer shall be responsible for furnishing the maintenance to the luminaire, poles and brackets, wiring in/on poles, and circuitry and duct. Other maintenance shall be furnished by the Company in accordance with the paragraph titled "Maintenance Service Provided" below.
- Installation of New Lights - Notification: The Customer shall notify the Company, on a timely basis, of any new lights installed, such notification shall include the information required in the paragraph titled "Inventory" below.
- Connection of Street Light Systems: The Company will connect all electrical loads to, or disconnect the same from, the Company's electric distribution facilities.
- Company Approval Of Luminaires: Only luminaires with maintenance costs comparable to Company standard luminaires will be served under this schedule. In addition the luminaire shall accept a Company standard lamp(s) (mogul base lamp) and a photocell receptacle that will accept the locking type of 120 volt photocell complying with ANSI C136.10 - 1988 or subsequent revision. Luminaires of types that are not approved for service under this schedule may be suitable for service under Schedule 52, Custom Lighting Service.
