

Energy-efficient window upgrade rebate application for electrically-heated homes

Save \$5 per square foot, up to \$750 per fully insulated home, when upgrading your single-pane wood or metal framed windows or double-pane metal framed windows to windows with a U-factor of .30 or lower. The tariffs and funding supporting this program may be subject to change without notice. **This Puget Sound Energy weatherization program is available for a limited time, so schedule your service today.**

For more information, contractor referrals or for help completing this form, visit **PSE.com/Rebates**, call a PSE Energy Advisor at **1-800-562-1482**, Monday through Friday, 8 a.m. to 5 p.m.

Directions:

Carefully fill out this application and submit to PSE with the following information. Please keep copies for your records.

1. A paid invoice showing total square footage of window replacement from your installing window contractor
2. Copies of National Fenestration Rating Council (NFRC) stickers affixed to each type of window. If stickers are not available, a window manufacturer's confirmation order may be used.

WHAT TYPE OF WINDOW DID YOU REPLACE? [] SINGLE PANE WOOD OR METAL [] DOUBLE PANE METAL

Benefits of a fully insulated home:

To truly enjoy the benefits of energy-efficient windows and to qualify for this rebate, your home must be fully insulated with over 6 inches of attic insulation, over 1 inch of wall insulation and over 4 inches of floor insulation, PSE also offers up to \$1,700 in instant rebates for insulation measures.

General qualifications:

- Home must contain minimum levels of insulation: over six inches of attic insulation, over one inch of wall insulation and over four inches of floor insulation
- Must be a residential PSE customer who uses electricity from PSE as the **main heating** source and installs qualifying windows in a structure with four units or less
- Rebate form must be submitted within 30 days of equipment installation
- Windows must be installed on/after January 1, 2012
- Upgrade from existing single-pane wood or metal framed windows or double-pane metal framed windows to energy-efficient windows (.30 U-factor or lower certified by the NFRC)
- Have a licensed, bonded and insured contractor install windows to manufacturer specifications. It is recommended but not required that you choose contractors that have received window installation certification through the Installation Masters program
- Rebate does not apply to new construction, additions that expand the home's square or cubic footage or do-it-yourself installations
- One rebate for window upgrades per site address. All customers receiving rebates automatically agree to periodic inspection

How contractors can participate:

- Install qualifying windows to replace single-pane wood or metal framed or double-pane metal framed windows
- Provide an invoice to your customer identifying the total square footage of the replaced single-pane wood or metal framed or double-pane metal framed windows and all NFRC stickers certifying U-factors of the newly installed windows

Disclaimer/No Liability:

PSE does not guarantee any particular energy-savings results by installation of the weatherization measures proposed by the independent contractor. PSE is providing customers ("program participant(s)") who desire certain weatherization measures with a rebate when an independent contractor installs such measures. PSE is not involved in evaluating the weatherization measures that may be suggested by the independent contractor to a program participant.

The independent contractor and its employees are not employees of PSE, and PSE will not be supervising the work performed by the independent contractor for program participants. As such, any issues related to the work undertaken for the program participant should be addressed directly with the independent contractor because PSE shall not be responsible in any way for proper completion of the work or proper performance of any product acquired by a program participant under this weatherization program. By accepting the rebate, program participants agree to these terms and assume the risk of any loss or damage(s).

PSE has made no implied or express warranties or representation with regard to these products or energy savings from their installation.

This rebate is payable under terms and conditions of PSE's tariff filed with the Washington State Utilities and Transportation Commission. The tariffs, funding and weatherization program may be subject to change without notice.

PSE will review your rebate application and determine if your window upgrade qualifies for the rebate.

By signing below, I represent that all information on this form is true. I have read, understood, and agreed to the terms and conditions of this service and certify that the energy-efficient windows described above have been installed at the location indicated and replaced single-pane wood or metal framed or double-pane metal framed windows in a home using PSE electricity as its main source of heat. I have proof that my home is fully insulated meeting the criteria outlined above. I understand that PSE inspects a random sample of installations to ensure quality control. I authorize PSE to release my customer account information, including my billing and energy usage information, to an independent, third-party evaluator solely for the purposes of evaluating this rebate program, confirming energy savings and other quality assurance purposes.
