

A CLEAR VIEW ON SAVINGS IS RE-ENERGIZING

Window rebates for fully insulated homes from Puget Sound Energy

Tired of getting a draft even when your windows are closed? It could be time to replace those old leaky windows. Luckily, PSE offers a rebate of \$5 per square foot, up to \$750 when you upgrade to energy-efficient windows.

Energy-efficient windows reduce drafts and window condensation, keeping the elements outside where they belong. They also allow you to control the temperature in your home - increasing comfort for you and your family and ultimately adding value to your home.

Window rebates available to eligible PSE customers:

- In homes primarily heated by electricity from PSE
- In homes with a minimum of: over six inches of attic insulation, over one inch of wall insulation, and over four inches of floor insulation
- Who have a licensed, bonded and insured contractor install windows to manufacturer specifications
- Who install energy-efficient windows on/after August 1, 2011
- Who upgrade from existing single-pane wood or metal framed windows or double-pane metal framed windows to energy-efficient windows with .30 U-factor or lower certified by the NFRC

Note: Income-eligible customers may qualify for free insulation upgrades.

For more information on PSE's energy-efficient windows and insulation rebates, including finding a contractor, visit PSE.com/Rebates or call a PSE Energy Advisor at **1-800-562-1482**, Monday through Friday, 8 a.m. to 5 p.m.

DISCLAIMER/NO LIABILITY: PSE does not guarantee any particular energy-savings results by installation of the weatherization measures proposed by the independent contractor. PSE is providing customers ("program participant(s)") who desire certain weatherization measures with a rebate when an independent contractor installs such measures. PSE is not involved in evaluating the weatherization measures that may be suggested by the independent contractor to a program participant.

The independent contractor and its employees are not employees of PSE, and PSE will not be supervising the work performed by the independent contractor for program participants. As such, any issues related to the work undertaken for the program participant should be addressed directly with the independent contractor because PSE shall not be responsible in any way for proper completion of the work or proper performance of any product acquired by a program participant under this weatherization program. By accepting the rebate, program participants agree to these terms and assume the risk of any loss or damage(s).

PSE has made no implied or express warranties or representation with regard to these products or energy savings from their installation.

This rebate is payable under terms and conditions of PSE's tariff filed with the Washington State Utilities and Transportation Commission. The tariffs, funding and weatherization program may be subject to change without notice.
