

For Connie Baerny, every day is bring your daughters to work day.

At Puget Sound Energy, we're like one big family. Maybe because of all the families who work here. Like Connie Baerny, a human resources specialist, who gets to count her two daughters as co-workers. Daughter Anna is part of the renewable energy team working to find climate change solutions, and Erin, an apprentice wireman, improves system reliability and capacity.

PSE has had a lot of families join our family over our 135-year history. But we don't just have a long legacy of providing clean, affordable energy and natural gas, we also have a vision for the future. And we'll continue working hard to serve our community for generations to come. So from all of us, thanks for letting our family provide the energy for yours.
