

I told him I loved my job. For once, he actually listened.

Marina Iov, a revenue requirements analyst at Puget Sound Energy, has always tried to set a good example for her son, Lev, and pass along the values her parents instilled in her. She taught him to be responsible, compassionate and honest. And she encouraged him to do what he loved. So when it came to choosing a career, he chose to follow his mother and join PSE, where he's now an energy advisor. PSE has had a lot of

families join our family over our 135-year history. And along with our legacy in the region, we also have a vision for the future. We've even been named one of the top 10 utilities in the nation by the Solar Electric Power Association. And we'll continue to serve our community while protecting the environment for generations to come. So from all of us, thanks for letting our family provide the energy for yours.
