Customer is responsible for all fuel lines from the meter to appliances</p> </div> <div style="border: 1px solid black; padding: 5px;"> <p style="text-align: center; margin: 0;">Customer Trenching</p> <p style="font-size: small; margin: 5px 0;">PSE will provide the trench from the main to the property line. The customer is responsible for trenching from the property line to the meter location. PSE will set a meter. The customer is also responsible for all fuel lines from the meter to appliances</p> </div>	

Gas Service:

A PSE representative will review your application to determine gas availability and the cost to bring gas service to your residence. This application is the preliminary step to get information about natural gas service and not an agreement to use gas or have gas installed. If you decide to have gas installed, a gas contract will be sent for signature to approve any associated costs.

Electric Service:

To provide you with new electric service, this application is official notice to Puget Sound Energy (PSE) to begin all the needed steps. If any of the above electric service information is revised you may be responsible for additional charges related to engineering, construction, or other aspects of providing service. If there is a lack of progress or inactivity on your electric service project and this project is canceled either by you or by PSE, you will be responsible for paying PSE actual costs incurred up to the time of cancellation.

I understand that completing this box constitutes a legal and binding signature confirming that I acknowledge and agree to the above terms.

Signature (Typed Signature is Acceptable)	Date
---	------

Electronic application submission via the submit button or as an attachment to NewServiceApplications@pse.com is the preferred and most efficient method for application submission. If that is not possible, you may mail or fax your application and site plan.
