

The latest news on what's powering our neighborhoods

April is National Safe Digging Month

Before you dig, click or call to prevent costly and dangerous mistakes. Even if you've dug in the same spot before, it's important to request a utility locate at least two days before any digging—big or small. Gardening, installing a fence, building a deck, or planting a tree can all affect PSE's underground gas and power lines. The markings are free and required by law. If someone else is doing the work, be sure a request was made.

Call 811 or visit [DigSafeWA.com](https://www.digsafe.com).

Create a sustainable future with renewable energy

Your energy choices affect the planet. By purchasing renewable energy, you can create positive environmental change and be part of a cleaner energy future for our community. We offer a variety of flexible, affordable renewable energy programs for your home or business to fit your budget and sustainability goals.

Beware of scams

Stay informed so you can protect yourself from fraud. Scammers can be threatening and clever in using new, deceptive tactics.

What to know about scams:

- **We never ask or require you to purchase a prepaid debit card or pay via cash apps** to avoid disconnection, even if you have a delinquent account.
- **You'll receive several communications** related to bill payment before any service disruption.
- **Our secure online payment portal** is available only through PSE.com or through the **MyPSE app**.
