

October 2010 Puget Sound Energy bill package inserts and information 1.5 million bills

- Outside envelope: Customer service – guaranteed
- Return envelope: Go paperless with online statements.
- Back of bill: Ways to pay your bill; Ways to reach us; Bill statement codes; Contact for questions about your bill or service; Explanation of terms used; Emergency or power outage phone numbers in English, Spanish, Chinese and Russian; Customer Service Guarantees and Late payment fee information
- EnergyWise Newsletter September/October – Student interest in math and science could lead to utility careers; Experienced utility executive named PSE president; Fall is good time to prepare for possible emergencies; It's not too early: Get your home safe and ready for winter; Know how to detect a natural gas leak; Adjustments to bills anticipated in October; Moving? Give us a call or go online; 50,000th visitor to renewable energy center names wind turbine "Serendipity"; Save energy and win prizes with PSE's "re-energize Your block"; Electricity: Fuel mix
- Bill print message
- Insert: Getting loads of savings is Re-Energizing: Get up to \$250 in rebates for an efficient clothes washer
- Insert: Re-Energize your next home improvement project: PSE can help you find the right contractor for the job.
- Insert: Privacy notice
- Insert: Re-Energizing is comfort at the flip of a switch: Get a \$200 rebate for a high-efficiency natural gas fireplace
- Insert: Pumping up the savings is Re-Energizing: Get up to \$2,000 back on a heat pump water heater

Ways to Pay Your Bill

Puget Sound Energy offers several payment options:

- **Online at PSE.com** via My PSE Account
- **Automatic withdrawal** from your bank account
- **Credit/debit cards or check by phone** (transaction fee applies)
- **By mail to:** Puget Sound Energy, Payment Processing BOT-01H, P.O. Box 91269, Bellevue, WA 98009-9269
- **Budget Payment Plan** helps even out bills
- **In person** at an authorized pay station, see PSE.com for payment locations

Ways to Reach Us

- **PSE Customer Service 1-888-225-5773**
- **TTY hearing/speech impaired 1-800-962-9498**
- **TRS Telecommunications Relay Service 1-866-831-5161**
- **PSE Customer Construction Services 1-888-321-7779**
Business hours: 7 a.m.–5 p.m. Monday–Friday
- **PSE Energy Advisors 1-800-562-1482**
Business hours: 8 a.m.–5 p.m. Monday–Friday

Bill Statement Codes

- **ESTM** — *Estimated*
- **CORR** — *Corrected/Adjusted*
- **PRRT** — *Prorated*
- **ACTL** — *Actual*

Emergency or Power Outage

Dial 1-888-225-5773

To report a natural gas or electric emergency or a power outage, 24 hours a day, call **1-888-225-5773**

Para informar sobre la emergencia del fallo de gas o electricidad 24 horas al día, llame **1-888-225-5773**

若欲報告有關煤氣或電力故障，或停電，每天24小時均可致電 **1-888-225-5773**

Чтобы сообщить об аварии, связанной с природным газом или электроэнергией, или о перерыве в подаче электроэнергии, звоните по телефону **1-888-225-5773** круглосуточно

We can translate for other languages. Call **1-888-225-5773**.

Customer Service Guarantees

Appointments: You will receive a \$50 credit on your PSE bill if we do not keep a set appointment to install new or reconnect existing service or inspect natural gas equipment. Exceptions apply during major storms or significant events beyond our control.

Electric service restoration: If your electric service is out for 120 consecutive hours or longer, you may be eligible to receive a \$50 credit on your PSE bill after you report the outage or request the credit within seven days of the outage. Certain conditions beyond our control will cause the guarantee to be suspended.

Questions about Your Bill or Service

If you have questions or concerns or a dispute regarding your energy bill or service, please call us during business hours Monday–Friday, 7:30 a.m. to 6:30 p.m. at 1-888-225-5773 for billing inquiries. Any necessary corrections will be made promptly. If further follow-up is required, ask a PSE Customer Services supervisor to assist you. Every effort will be made to resolve disagreements and misunderstandings. If you are dissatisfied with the resolution, you may contact the Consumer Affairs section of the Washington Utilities and Transportation Commission at 1-800-562-6150 or complete an online complaint form at www.wutc.wa.gov. Copies of information on rules, rates, power supply fuel mix, regulations, customer rights and responsibilities, as well as an annual report, are available by calling 1-888-225-5773 and at PSE.com.

Late Payment Fee

Your bill is due and payable upon delivery. A late payment fee of 1 percent per month will be assessed on balances which remain unpaid for more than 10 business days after the due date on the bill. A 30-day delay of the late fee will be granted to low-income customers who notify PSE that they have applied to a low-income organization for financial aid. Customers participating in the Budget Payment Plan will be exempt from any late payment fee as long as the agreed-upon payment terms are kept current.

Explanation of Terms Used

Basic Charge

The basic charge covers a portion of the costs for billing, meter reading and other related fixed costs. These fixed costs do not vary with the amount of electricity or natural gas used or the number of days covered by the bill.

Delivery Charge

This charge is for the construction, operation and maintenance of natural gas pipes, gate stations, pressure regulators and other equipment necessary for the delivery of natural gas to you, based on the amount of natural gas used.

Electric/Natural Gas Conservation Program Charge

Every customer helps pay for the costs of weatherization and conservation programs.

Energy Exchange Credit

This credit applies to residential and qualified small farm electricity customers only. It is a pass-through of the Federal Columbia River Benefits supplied by BPA. These benefits are from low-cost power generated by federal hydroelectric dams.

kWh

A kilowatt hour is a measure of 1,000 watts of electricity consumed in 1 hour. A 100-watt light bulb consumes 1 kWh of electricity over 10 hours.

Btu Factor

British thermal unit is a measure of heat content. The Btu factor is an adjustment factor based on the actual heat content of the natural gas.

CCF

CCF stands for hundreds of cubic feet, a measure of the volume of natural gas used.

Therm

A therm is a unit of heat that equals 100,000 Btu. A therm is the volume of gas (CCF) that when multiplied by the Btu factor equals 100,000 Btu. A natural gas stovetop burner on for 10 hours would use approximately one therm of natural gas. One therm of natural gas is equivalent to 29.3 kWh of electricity.

Student interest in math and science could lead to utility careers

“What do you want to be when you grow up?”

With the start of the school year, this question may be on the minds of thousands of area students and their parents. Puget Sound Energy has a suggestion: Students with an interest in mathematics and science should consider a career with an energy utility.

PSE is always planning ahead to make sure we keep the lights on and gas flowing for our customers. A challenge the utility industry faces is a possible worker shortage as baby-boomers move into retirement. Nearly 44 percent of PSE employees will be eligible to retire in the next five years. Approximately half are skilled craft employees who are highly trained in the safe and reliable operation of the electric and natural gas systems. These are good local jobs. In addition, there will be increased demand for skilled “green collar” workers as well as electrical, civil and mechanical engineers at PSE and other organizations that support the utility.

To promote interest in utility careers, PSE reaches out with presentations at local middle schools, high schools, area colleges and career fairs. PSE also helps students consider utility careers through paid internships and social media outreach. The exposure introduces students to traditional energy systems and opportunities in the green economy, such as energy-efficiency strategies and renewable energy technologies.

PSE hired Brian Lam, shown measuring the distance between underground natural gas valves, as an intern while he pursued a degree at Lake Washington Technical College. Brian is now a full-time PSE employee.

Through investor funds, PSE has granted more than \$1 million in the last several years in science, technology, engineering and math curricula at more than 20 local area technical and community colleges and universities. More than 380 grants support workforce development through courses geared toward power plant operation, wind-generation plants and technical apprentice-level training.

The investment has helped expose and prepare a new generation of employees for successful careers at PSE and in the utility industry.

PSE needs workers at our wind, hydroelectric and natural gas-fired generation facilities and, to maintain power poles, natural gas pipes, power cable, and substations in place across Washington state.

Experienced utility executive named PSE president

Kimberly J. Harris was named president of PSE, effective June 30. Harris, who has been with PSE in increasing positions of responsibility since 1999, will assume the additional role of chief executive officer upon the 2011 retirement of CEO Stephen P. Reynolds.

Kimberly Harris “Thoughtful succession planning is vital to any enterprise,” said Bill Ayer, PSE chairman of the board. “Kimberly has the experience and the vision to lead PSE going forward. She is well qualified to build on the success achieved by Steve and the leadership team.”

Harris has more than 20 years of experience in the utility industry, first joining PSE as an associate general counsel. She has held executive leadership positions at PSE in the areas of energy efficiency, rates and regulatory policy, energy resources and federal government relations.

Active in the community, Harris serves on the Washington State Clean Energy Leadership Council as well as the Energy Strategy Advisory Committee. She is also a member of the board of directors of the American Red Cross of King and Kitsap counties.

If you'd like to learn more about PSE's management team, visit PSE.com.

Fall is good time to prepare for possible emergencies

With September designated by the Federal Emergency Management Agency as National Preparedness Month, now is a good time to put together an emergency kit to ensure that your family, home and business will be safe during and after an emergency.

FEMA and other organizations, including the Take Winter By Storm awareness campaign created for Western Washington by King County and area entities, including PSE, recommend that you prepare an emergency kit consisting of at least a three-day supply of food, water, medicines, pet supplies, flashlights, battery-powered radio and batteries, a first aid kit and other items.

Other preparedness tips include:

- ◆ Stay out of the way of floodwaters outdoors and indoors.
- ◆ Keep storm drains clear to prevent flooding.
- ◆ Maintain gutters and downspouts.
- ◆ Never use charcoal or a gas grill to cook indoors, carbon monoxide can be deadly.
- ◆ Establish an out-of-area contact for family members to call should the local phone system be out of service.

You can find more information on preparedness at Ready.gov and the Take Winter By Storm website, TakeWinterByStorm.org.

Weather radios provide storm alerts

A weather radio is an excellent source of timely and accurate local weather information 24 hours a day and an early warning system for emergency events. Gov. Christine Gregoire has proclaimed September as Weather Radio Awareness

Month, and has expressed support for a weather radio campaign goal of having weather radios become as common as smoke detectors in homes and businesses.

For information on weather radio retailers, visit the Washington State Emergency Management campaign website at emd.wa.gov.

PSE's Andy Wappler, Take Winter By Storm spokesperson, participates in a public service announcement.

It's not too early: Get your home safe and ready for winter

With La Niña expected to bring our region a cooler and wetter-than-normal winter, it's not too soon to start preparing your home for the change of seasons. Begin by making sure your heating system is in good, safe working order. Here's a checklist to help get your home prepared:

◆ Run the furnace to make sure it's operating properly.

Check for unusual odors or sounds, or warm, moist air escaping into the house from the furnace or vent pipe. If any of these problems exist, call a furnace technician.

◆ Check the chimney.

Make sure it is not blocked by bird nests, leaves, dirt or obstructions that could prevent proper ventilation.

◆ Clean or replace dirty furnace filters.

Change or clean monthly during the heating season.

- ◆ **Check filters monthly on heat pumps.** Keep the indoor coil free of lint and dirt, and clean the outside coil at least twice a year.
- ◆ **Check the vent pipe.** Make sure the metal or plastic vent pipe is connected securely to the furnace and shows no signs of damage, soot, rust or corrosion.
- ◆ **Keep furnace area clutter-free.** Clean the area around the furnace to allow ventilation and prevent fire hazards. Never store corrosive or flammable materials on or near the furnace or vent pipe.

Know how to detect a natural gas leak

We inserted a scratch and sniff pamphlet in your bill in August and September as part of a “natural gas stinks” safety campaign that went viral after we issued a news release and followed up with social media. From Singapore to Belfast to Seattle, news broadcasts and postings on

news websites are drawing attention to the fact that we add a sulfur, or “rotten egg,” smell to the normally colorless and odorless natural gas for your safety. This distinctive odor alerts you to a natural gas leak in your home or elsewhere. Other signs of a possible natural gas leak, particularly near a pipeline, include a hissing sound, blowing dirt, or bubbles rising in a puddle. If you suspect a natural gas leak, call PSE at 1-888-225-5773, or call 911.

Adjustments to bills anticipated in October

In late August, PSE requested slight adjustments in natural gas and electric rates. If approved by the Washington Utilities and Transportation Commission, the changes are expected to take effect Oct. 1.

An increase amounting to about 4 cents a month on an electric bill and 3 cents a month on a natural gas bill will cover the higher costs for PSE’s low-income programs.

Moving? Give us a call or go online

If you’re planning to move into a new home or apartment, make sure to request new service, transfer existing service or stop your service *before* you move. You can also stop your service and close your account online by going to PSE.com or calling us at 1-888-225-5773.

50,000th visitor to Renewable Energy Center names wind turbine “Serendipity”

For her birthday over the Fourth of July weekend, Sara Battin of Seattle made an impromptu visit with a friend to PSE’s Wild Horse Renewable Energy Center near Ellensburg to walk the trail of discovery. While there, Battin received a surprise when she became the center’s 50,000th visitor, earning her the right to name the highest and best-producing wind turbine at our Wild Horse Wind and Solar Facility, where the center is located. Battin named the turbine Serendipity. The Renewable Energy Center is open daily from April through November.

Sara Battin at Wild Horse

In Your Community

Save energy and win prizes with PSE's "Re-Energize Your Block"

Getting involved in your community to conserve resources is "Re-Energizing!" PSE and participating retailers and manufacturers are offering our residential electric customers the chance to win great energy-efficient prizes during our Re-Energize Your Block campaign through September. The focus: Help residential electric customers take action — and have fun — in becoming more energy efficient.

You can take energy-efficient actions at home and on the go with PSE's Scavenger Hunt. Or you can tell us how you're Re-Energizing your block in our Re-Energize Photo/Video Contest. It's easy to participate in the many opportunities to be energy-efficient and help your family and neighbors save energy.

Visit PSE.com/ReEnergizeYourBlock to get started. And be sure to check us out at Facebook.com/ReEnergize and Twitter.com/PSETalk.

Re-Energize Your Block events

Sept. 4 – Home Depot, Silverdale

Sept. 11 – Home Depot, Issaquah

Sept. 18 – Home Depot, Olympia

Sept. 25 – Home Depot, Bellevue

PSE representatives will be on hand to answer questions about ways you can save every day through energy-efficiency rebates, as well as explain energy safety, including natural gas awareness, the use of CFL bulbs and proper disposal of old bulbs and refrigerators.

Electricity: Fuel Mix

The electricity that Puget Sound Energy delivers to customers is generated using a number of different resources. The fuel mix for these resources for electricity delivered in 2009 is shown in the following table and chart:

| Fuel | Percentage |
|---------------|------------|
| Coal | 32 |
| Hydroelectric | 36 |
| Natural Gas | 30 |
| Nuclear | 1 |
| Other* | 1 |
| Total | 100 |

* Biomass, landfill gas, petroleum, waste and wind.
Source of data: As reported by PSE to, and published by, the Washington Department of Commerce.

October 2010 bill print message

Bill-print message for all customer schedules, electric, natural gas and combined electric-natural gas accounts

Your bill this month reflects a slight increase that went into effect Oct. 1 in the monthly charge PSE customers pay into an energy-assistance fund for low-income households.

GETTING LOADS OF SAVINGS IS RE-ENERGIZING

Save watts, gallons and get up to \$250 in combined rebates

Think the worst thing your old clothes washer could do is turn your favorite white T-shirt pink? **Think again.** Your old machine could be wasting energy and water with every load – making the environment and your wallet very, very sad.

For a limited time, you can get a **\$50 to \$100** rebate from Puget Sound Energy AND a **\$150 rebate** from Cash for Appliances Washington to replace a resource-wasting clothes washer with a premium-efficiency model meeting WashWise program standards.

RE-ENERGIZE

YOUR NEXT HOME IMPROVEMENT PROJECT

Puget Sound Energy's Contractor Referral Service can save you the time and hassle of finding the right contractor for the job. Member contractors:

- Have a thorough understanding of energy codes and a commitment to energy-saving equipment and product applications to help you save money
- Abide by fair business practices under the Better Business Bureau, the Department of Labor & Industries and the Attorney General's Office
- Are licensed, certified, insured and bonded
- Receive on-going training on the latest technology and methods
- Receive regular performance reviews to maintain high standards

[PSE.COM/CRS](https://www.pse.com/crs)

PSE can help you find a pre-screened, independent contractor to Re-Energize your next home improvement project.

Request a referral for one of the following energy-efficient home upgrades at [PSE.com/CRS](https://www.pse.com/crs) or call a PSE Energy Advisor at **1-800-562-1482**, Monday through Friday, 8 a.m. to 5 p.m. You may also qualify for a rebate from PSE.

Weatherization

- Insulation
- Duct sealing
- Windows

Heating and water heating

- Fan motor upgrade
- Natural gas fuel conversion

Electric systems:

- Ductless heat pump
- Geothermal heat pump
- Air-source heat pump
- Heat pump water heater
- Storage water heater
- Waste-water heat recovery system

Natural gas systems:

- Furnace
- Fireplace insert
- Boiler
- Tankless water heater
- Storage water heater

EARN TAX CREDITS

Energy-efficient home improvements may earn you up to **\$1,500** in federal tax credits.

For more information, visit energystar.gov/taxcredits or consult your tax advisor.

PUGET SOUND ENERGY

The Energy To Do Great Things

Notice Concerning Customer Information

This notice describes how Puget Sound Energy handles your private information (such as your name, address, telephone number and other personal information), collected by virtue of the customer-utility relationship.

PSE's business practices are regulated by the Washington State Utilities and Transportation Commission. The UTC has regulations which limit how PSE may disclose or sell your private customer information.

UTC regulations require PSE to obtain the customer's written permission before disclosing or selling any private customer information to affiliates, subsidiaries or other third parties for purposes of marketing services or products. In other words, before we provide your name, service address or other private information to any service or product provider who intends to market services or products to you, we must obtain your written permission to do so first. If you choose not to give us permission, we will not provide any of your personal information to these third parties.

We may, however, insert marketing information into our billing packets. PSE also may share aggregated information, which does not allow you to be personally identified or contacted (for example, information on demographic and site usage), with third parties such as partners and advertisers, without your authorization. This information will not contain any material which could personally identify any individual person, or customer.

We respect your privacy. For more information about our privacy policies, please visit the PSE web site at PSE.com or contact us at 1-888-225-5773.

RE-ENERGIZING IS INSTANT COMFORT AT THE FLIP OF A SWITCH

Get a \$200 re-bate for a high-efficiency natural gas fireplace

Whoever decided a fireplace needed an on/off switch was a genius. Also genius, Re-Energizing your home with a **\$200 rebate** from Puget Sound Energy for a high-efficiency natural gas fireplace insert. Not only will you get instant comfy and cozy, you'll also make your home more energy efficient and, because there's no need for wood, save a few trees.

High-efficiency natural gas fireplace inserts:

- Are clean and soot-free
- Are easily controlled using an on/off switch or thermostat
- Make a great primary or back-up heat source, even in a power outage
- May increase the value of your home

*Who qualifies? Residents living in a building with four units or less, heated primarily by natural gas from PSE. **Additional qualifications apply.***
