Aspiring to Beyond Net Zero Carbon by 2045

We appreciate all you’re doing with us, together, to move cleaner energy forward in our region.

To reach this ambitious goal we are:

- Reducing emissions from our electric and gas operations and electric supply to net zero by 2030, and have a 100% carbon-free electric supply by 2045.
- Innovating to reach net zero carbon emissions from natural gas used in customer homes and businesses by 2045.
- Partnering with customers and other sectors to reduce carbon emissions across our state by offering a variety of tips, tools, offers and options to help make cleaner energy more accessible.

Beware of scams

Stay informed so you can protect yourself from fraud. Scammers can be threatening and clever in using new, deceptive tactics.

What to know about scams:

- We never ask or require you to purchase a prepaid debit card to avoid disconnection, even if you have a delinquent account.
- You’ll receive several communications related to bill payment before any service disruption.
- Our bill payment vendors don’t call after noon on Saturdays and all day Sundays; any calls during those periods are red flags.
