

April is Safe Digging Month

Call 811 two to ten days before you dig. It's free, it's the law, and it helps prevent damage to gas or electric lines. If a contractor is digging for you, confirm they called. Visit [DigSafeWA.com](https://www.digsafe.com) to learn more.

Transmission Message

This past month's transmission system peak occurred on March 13 at hour ending 1100.
