

Summary of Changes to the All Resources RFP

In response to feedback from WUTC staff and the public, PSE has made the following changes to its All Resources RFP since filing the draft on March 29, 2018.

Document Section	Summary of Change	Page #(s)
RFP, global change	Revised the document title and all references to the title from RFP for All Generation Sources to All Resources RFP, to clarify for bidders that, in addition to generation resources, this RFP will also consider storage and renewable energy credit (REC) offers.	All
RFP, Introduction	Revised introduction to clarify that this RFP will consider storage and RECs.	1
RFP, Introduction	Added language to introduce Frequently Asked Questions (FAQs) and point to their location on www.pse.com/rfp .	1
RFP, Sections 1 and 2	Clarified that 2022 online date for resources is a preference based on our earliest stated RPS and capacity need, and not a requirement for eligibility to participate.	3 and 4
RFP, Section 2	Added language to indicate that a short-term REC bridging agreement to help PSE meet its RPS requirement would be an acceptable option until long-lead operating resources are online.	4
RFP, Section 2, Table 5	Corrected a typo in the delivery period months for super peak products to reflect a seasonal delivery period of Nov-Jan	4
RFP, Section 3, Table 7	Updated table to correct certain dates and added PSE's anticipated bidder conference on July 9, 2018.	8
RFP, Section 3	Added additional context to footnote #11 to help bidders more easily locate the referenced material in the 2017 IRP.	9
RFP, Section 6, Table 9	Corrected a typo in the date due column for the RFP proposal line item to reflect a due date of August 17, 2018.	15
Exhibit B, Section 1	Added to the second bullet in Exhibit B Section 1 (Description of offer) a reference to RFP document Section 2 (pages 6-7) regarding acceptable commercial arrangements.	B-2
Exhibit B, Section 4	Adjusted language in Section 4 (Description of project and project status) on page B-6 regarding fuel supply agreements to clarify that PSE does not require fuel supply agreements to be in place to be eligible for this RFP. The purpose of the bullet is to direct bidders to provide a status of any fuel supply agreements in progress or executed.	B-6
Exhibit C, Section 2(B)	Added words "required to be" to Section 2(B) to provide additional protection for confidential bidder information.	C-1
Exhibit G, Table 2	Replaced Table 2 and associated language with the estimated peak capacity credit tables (combined here as a single table) from 2017 IRP Chapter 6 (on page 6-8).	G-3
