Tolt 16-inch natural gas **PROJECT UPDATE** ▶▶▶

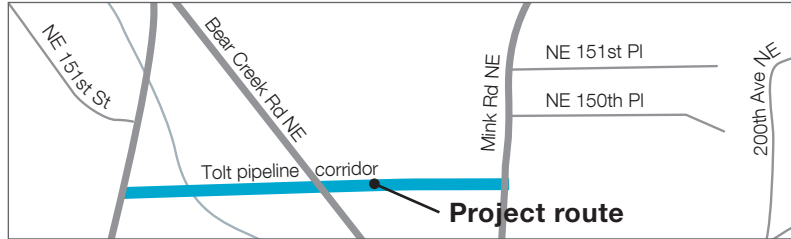

Tolt 16-inch natural gas line work rescheduled for 2018

PSE's work to continue construction of a new, 16-inch natural gas pipeline along the Seattle Public Utilities (SPU) Tolt pipeline corridor has been rescheduled. Construction was originally planned to begin this summer and is now expected to take place in summer 2018.

Thank you for your patience. We will continue to communicate plans about the project to the community as they develop, and will notify customers near the project area when construction will occur.
