

Update to PSE Natural Gas Line Extension Allowances

Please be advised of the further reduction to allowances for extending Puget Sound Energy natural gas lines. The reduced allowances are effective July 1st, 2023 per the 2021 Washington Utilities and Transportation Commission order to the utility to modify its line extension allowance methodology.

The change will not affect the following:

1. Projects with contracts already in place before July 1, 2023. Pricing on signed contracts are valid for 90 days.
2. Customers who have submitted their completed application to PSE before July 1, 2023. PSE gas line installations must be completed on or before June 30, 2024.

For information about PSE's rates and initiatives:

Contact Mari Davenport, mari.davenport@pse.com or 425-424-6911, or our tariff team at tariffs@pse.com.
