

EnergyCAP: Add an Aggregate Meter and Complete a Data Release

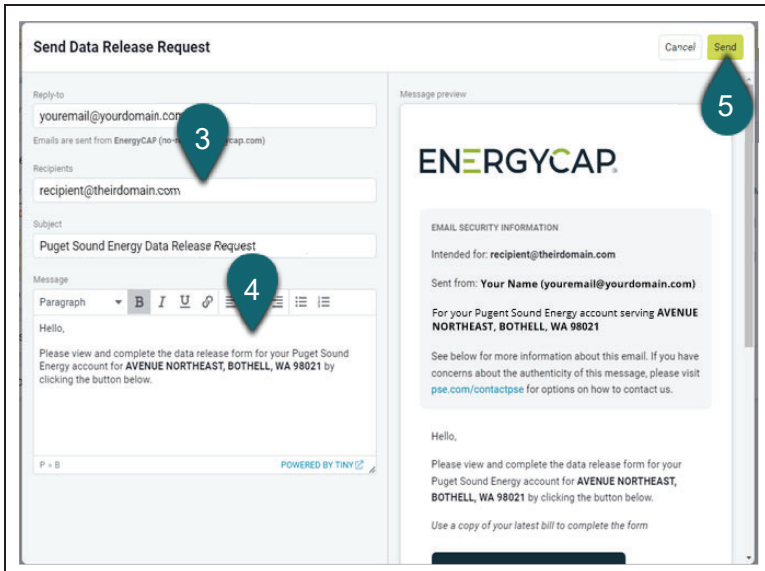

Purpose	By the end of this job aid, you will be able to add an aggregate meter and complete a data release in EnergyCAP.
Audience	EnergyCAP customers and PSE users.

	1	Add an Aggregate Meter
	1	Click Add Aggregate Meter .
	2	Select the Commodity from the dropdown menu.
	3	Select the meters from the Available Meters list that you would like to aggregate.
	4	Click Save .
	5	Result: The electric meters have been aggregated. You will be able to identify an aggregate meter by the sigma symbol.

3

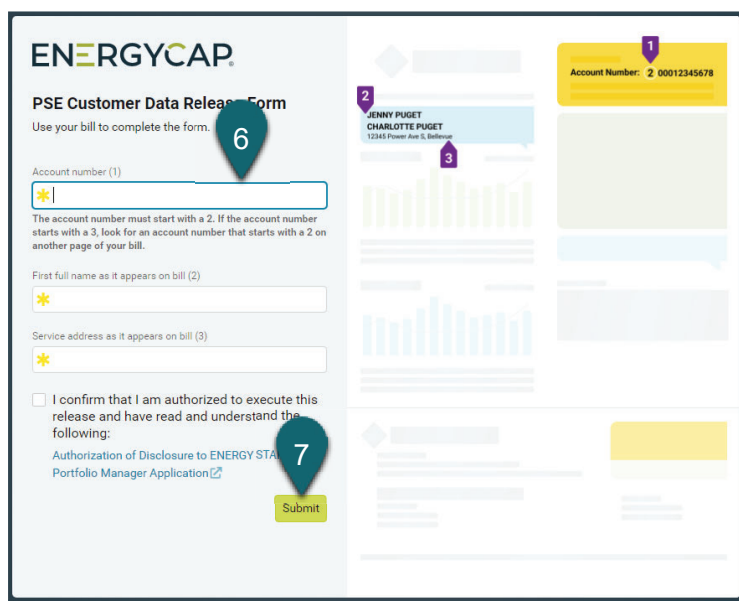

Input the Recipient's email address.

4

Add any personalization to the message that you would like.

5

Click **Send**.

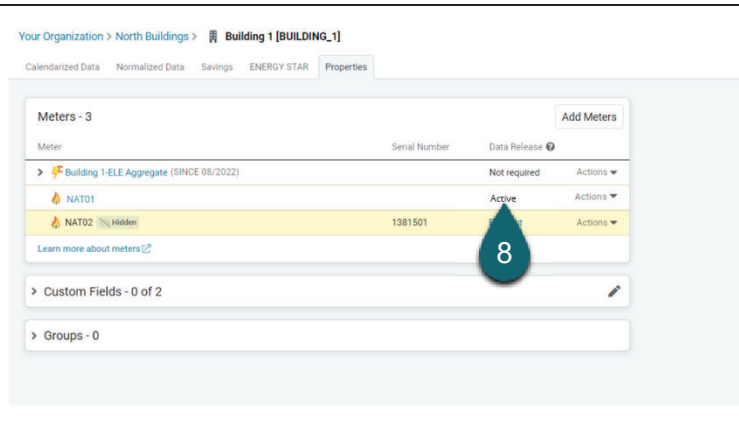

6

When the customer clicks to complete the release form, the PSE Customer Data Release Form will appear. The customer will then need to input the account number, their name, and service address exactly as it appears on their bill, as well as confirm authorization to execute the release and understand the terms in the Authorization of Disclosure to ENERGY STAR Portfolio Manager Application.

7

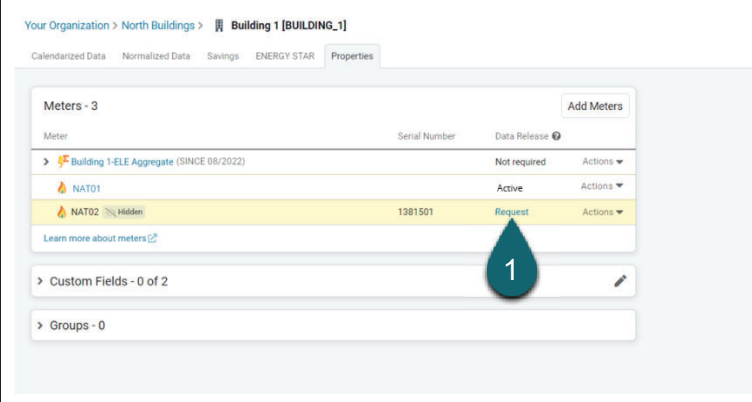

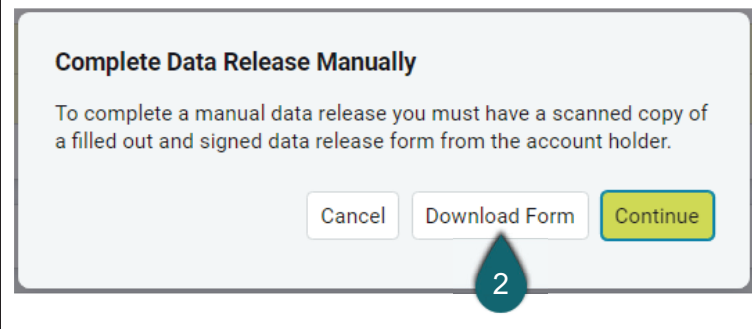

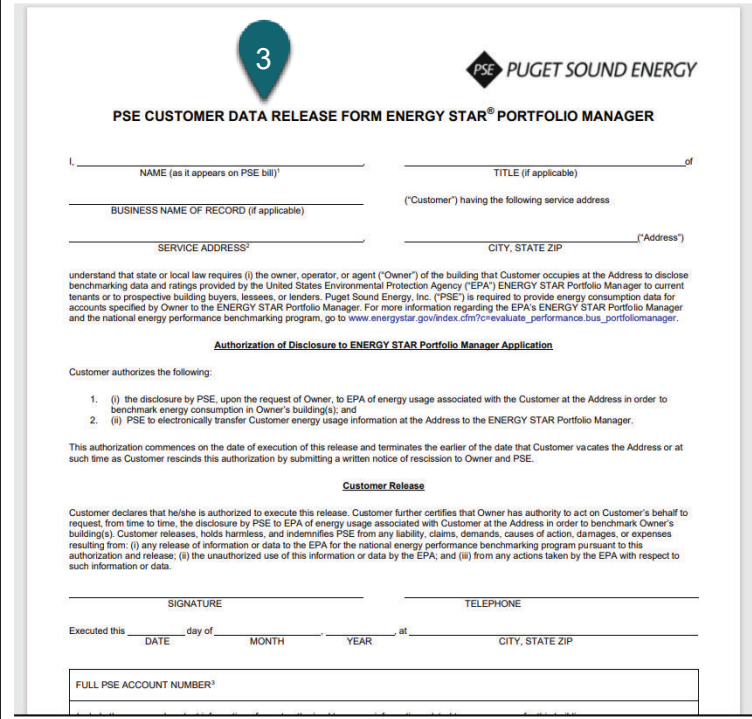

Click **Submit**.

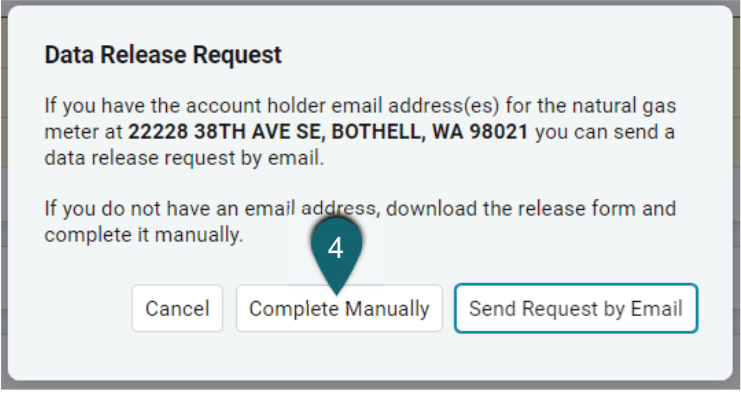

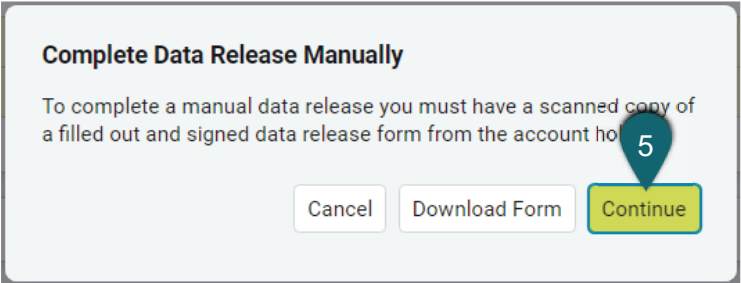

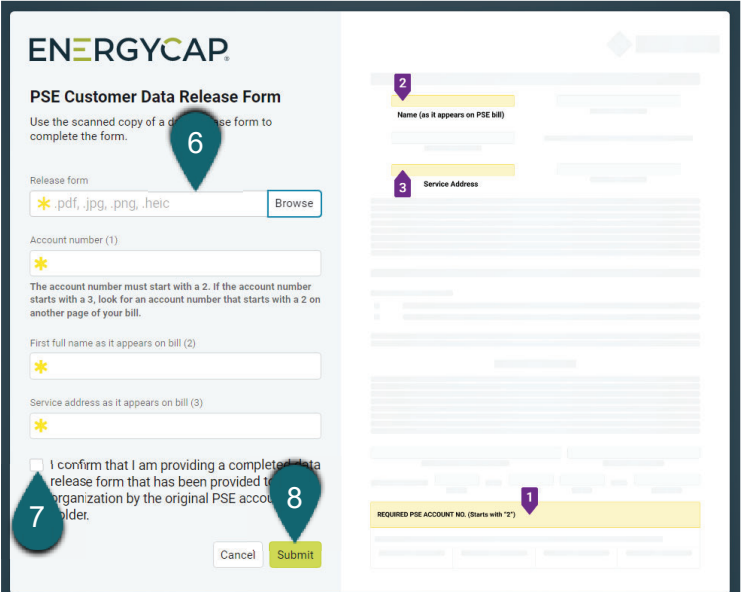

8

Result: The status of the Data Release for that meter should now be Active.
