**RE: Dockets UE-180607 and UG-180608
Revised 2019 Integrated Resource Plan Progress Report**

Dear Mr. Johnson:

On November 15, 2019, Puget Sound Energy (“PSE”) filed a progress report on its Integrated Resource Plan (“IRP”) under RCW 19.280.030 pursuant to Order 2 in the above-referenced dockets. Attached please find a revised progress report to replace the November 15, 2019 filing in its entirety.

PSE made minor and clarifying changes to its IRP progress report. PSE clarified in the title on page 1 that this progress report applies to its 2019 IRP.

On page 31 (Section 3), “Add line miles and project status to the planned major projects list and cost ranges,” PSE added a reference and corrected certain project dates. For clarity, PSE added a table to provide additional information concerning projects in “implementation/closeout” and “planning.” These changes were done for consistency with the PSE plan posted on OASIS in late November 2019.

Minor formatting changes were made to reflect pagination changes.

Mr. Mark L. Johnson
