

SCHEDULED POWER OUTAGE

Sunday, Sept. 13,
from **2 to 5 a.m.**
Wilkeson and Carbonado

Puget Sound Energy is working to upgrade our electric system from our existing low-voltage 55 kilovolt (kV) transmission line to our now current standard of 115 kV. In order to upgrade the system, PSE needs to take our Wilkeson substation located at 213 Church St. offline for a few hours during the early morning of Sunday, Sept. 13. This will be the second of three scheduled outages for this project.

We apologize for the inconvenience and appreciate your understanding the need for this temporary disruption of your electric service at the time where it should impact the community the least.

For more information, go to PSE.com or call customer service at 1-888-225-5773.
