## Upcoming construction work at PSE's Wilkeson substation

PSE is upgrading the Wilkeson substation in order to improve electric system capacity and reliability for the Wilkeson area. Construction work will take place at PSE's Wilkeson substation located near the intersection of Brierhill Boulevard and Church Street, and work is anticipated to occur from late June through late September.

There will likely be noise from trucks and heavy machinery during working hours. Some customers will experience a planned power outage because of this work. **Impacted customers will be notified of the date and time of any planned outages in advance.**

Thank you for your patience and understanding while we work to complete this project to improve your electric reliability.
