Thanks for your patience

Wallingford-area natural gas main replacement project completion

For the past 9 months, Puget Sound Energy and Infrasource crews have been working to replace the natural gas main serving your neighborhood. The natural gas work is now complete. We thank you for your patience while we completed this important project. Now that the natural gas work has been completed, you may notice ongoing temporary patch work on the roads and/or sidewalks.

These temporary patches will remain until a contractor crew from AA Asphaltting, Inc. returns to complete the final road and/or sidewalk restoration. The restoration is dependent upon weather, permitting and crew availability. We expect that final road restoration will begin in spring 2020 and continue into the summer. If you have any questions or concerns, please contact me at the information below and reference project #109107217. Thank you!
