

Reliability investments in 2017 Kenmore

- 1 Feeder reroute and reconductor with tree wire (2017-2018)**
 - Reroute due to access issues
 - Tree wire is insulated conductor that is less likely to go out from tree branches
- 2 Feeder reconductor with tree wire (2017-2018)**
 - Tree wire is insulated conductor that is less likely to go out from tree branches
- 3 Feeder reconductor with tree wire (2017-2018)**
 - Tree wire is insulated conductor that is less likely to go out from tree branches
- 4 Stillwater-Cottage Brook 115 kV transmission line upgrade (2017-2018)**
 - Rebuild existing line between Stillwater and Cottage Brook substations
 - Provide more reliable service to the Woodinville/Bothell/Kenmore area
 - Project is not indicated on map
