

## **DETERMINE IF A STAND-BY GENERATOR IS A VALUABLE BENEFIT FOR YOUR BUSINESS WITH A FREE GENERATOR CONSULTATION FROM PUGET SOUND ENERGY**

- **Energy is vital to the work you do**

At times, uncontrollable events including storms, high winds, flooding, vehicle accidents, vandalism or wildlife may cause interruptions to the supply of electric power to your business. This interruption can lead to lost revenue and products.

- **PSE works hard to provide reliable electric and gas energy for your business**

During power interruptions, a properly sized and installed standby generator, designed for commercial or industrial use, can safely power much of the business items and equipment critical to your success.

- **PSE has knowledgeable staff available for a free consultation on installing a standby generator**

Experts from PSE will visit your business and assist you as you evaluate your existing systems, requirements for installation and provide information about:

- Which generator will best suit your business needs
- Planning, gas meter and service sizing
- Locating, permitting and installation
- Referrals for pre-screened independent contractors

### **RE-ENERGIZE YOUR BUSINESS**
