

Windows rebates form

Thank you for your commitment to energy efficiency.

If you have questions about this rebate application, you can:

1. Review rebates qualifications by category at pse.com/windows
2. Contact an Energy Advisor at 1-800-562-1482 Monday through Friday 8 a.m. to 5 p.m.

You will need to include the following required documentation with your rebate application:

- Paid installation invoice¹ or purchase receipt that includes:
 - o Total number and cost of all windows and patio doors installed
 - o Measurement and type of each window and patio door installed
- Proof of U-factor rating²:
 - o Packing slip listing the U-factor for each individual window or patio door
 - OR**
 - o National Fenestration Rating Council (NFRC) stickers with U-factor for each individual window or patio door
- Your [income qualification form](#), if applying for Efficiency Boost*

Step 1:

Review the general customer qualifications and rebate requirements listed below.

- Must be a current PSE residential customer using PSE electricity or PSE natural gas as your primary home heat source.
- Rebate application must be submitted within 30 days of installation.
- Applies to existing single-family homes³ and manufactured/mobile homes.⁴ Single-family new construction, multifamily (five or more attached units) and commercial accounts are not eligible.
- Rebates only available on new, qualifying products.
- Cannot be combined with any other rebates except where noted.
- Installation must comply with all federal, state and local code requirements.
- Products that are replaced under warranty will not be eligible for second rebate.
- Each qualified single-family residence is limited to 15 windows rebates over the lifetime of the property.
- Windows must be installed within a conditioned living space at the time of installation. Garages, unconditioned basements, etc., are not eligible.
- Rebate cannot exceed the pre-tax purchase price of any rebated product.

¹Packing slips, contracts, scopes of work, and purchase orders do not qualify as an installation invoice or purchase receipt. An example of a paid installation invoice and NFRC sticker is provided at pse.com/windows.

²U-factor measures how well a product can keep hot or cold air inside of a room. A lower U-factor means higher efficiency and greater potential for energy savings. For more information, visit nfr.org/energy-performance-label/.

³A single-family home is defined as a home built primarily at the location where the home is inhabited; standalone homes, attached housing with four units or less, and modular homes fall under this classification.

⁴A manufactured or mobile homes is a factory-built dwelling that includes: (a) plumbing, heating, air conditioning, and electrical systems, normally contained within the belly of the structure and within a rodent barrier; (b) is built on a permanent chassis; (c) can be transported in one or more sections; (d) may, or may not be permanently affixed to a concrete foundation.
