

Manufactured homes space and water heat rebates

Thank you for your commitment to energy efficiency

If you have questions about the rebate application, you can:

1. Contact an Energy Advisor at 1-800-562-1482 Monday through Friday 8 a.m. to 5 p.m.
2. Review rebates qualifications by category at pse.com/rebates.
3. Verify your home meets definition of a Manufactured Home (see definition on pg. 3)

General qualifications

- You must be a current PSE manufactured or mobile home residential electric or natural gas customer. New construction, multifamily (five or more attached units) and commercial accounts are not eligible.
- Qualifying natural gas equipment must be installed in PSE's natural gas service area.
- Qualifying electric equipment must be installed in PSE's electric service area.
- Rebate application must be submitted within 30 days of purchase. (Do-It-Yourself electric hybrid water heaters may have up to 60 days from date of purchase to apply.)
- Rebates only available on new, qualifying equipment.
- Equipment that is replaced under warranty will not be eligible for second rebate.
- One space heat rebate and one water heat rebate per qualified manufactured home residence.
- Cannot be combined with any other rebates except where noted.
- Must install to comply with all federal, state and local code requirements.
- Rebate cannot exceed the pre-tax purchase price of any rebated product.
- Cannot be combined with rebate price-matching discounts offered by retailers.
- Equipment installed in single family homes must apply on a different rebate application. Please visit pse.com/rebates.
- Homes or ADU's with existing heat pumps are not eligible for a conversion rebate.

- HEAT PUMP WATER HEATER TIER 3 (\$700) HEAT PUMP WATER HEATER TIER 4 (\$750) NATURAL GAS TANKLESS WATER HEATER (\$600)

WATER HEATING PRODUCT INFORMATION

EQUIPMENT MODEL NUMBER

Attach a copy of your paid installation invoice and purchase receipt for your installed product(s)

It must include: an installation date, installation address, brand, model number(s) of all rebated equipment (including the heat pump, air handler and/or coil model number on the invoice), and amount paid.

Sign the terms and conditions

I acknowledge that the product(s) described above have been purchased and installed at the location indicated. I understand that PSE provides rebate incentives for measures that are designed to save energy but I acknowledge that estimated energy savings are not guaranteed and I understand that PSE has made no express warranties or representations with regard to these products or their installation. I acknowledge that I am responsible for meeting applicable code requirements, determining the adequacy of installation, and paying all amounts owed to contractors/suppliers. Further, I understand that this is a tariffed service and is subject to change or termination without prior notice. PSE reserves the right to inspect any installation prior to rebate approval and/or after rebate payment and I agree to provide PSE reasonable access for such purposes. I authorize PSE to release my customer account information, including my billing and energy usage information, to an independent, third-party evaluator solely for the purposes of evaluating this rebate program, confirming energy savings and for other quality assurance purposes. The disclosure of your private information will comply with PSE's privacy policy and state regulation.

Manufactured home and mobile homes: factory built dwelling that includes: (a) plumbing, heating, air conditioning, and electrical systems, normally contained within the belly of the structure and within a rodent barrier; (b) is built on a permanent chassis; (c) can be transported in one or more sections; (d) may, or may not be permanently affixed to a concrete foundation.

Heat pump water heater – NEEA Tier 3/4

- Electric hybrid water heaters may also be eligible for additional retail or midstream incentives. Please visit pse.com/instant for more information.
- Rebate amounts may be increased if purchased from neither a participating store nor from a contractor participating in PSE's Midstream Residential Water Heating program. Please contact PSE at 1-800-562-1482 to discuss rebate options if you purchased your equipment from an online or brick and mortar store that is not participating in PSE's Electric Hybrid Water Heater Program.
- Your electric hybrid water heater must run on electricity.
- Your electric hybrid water heater must meet NEEA Northern Climate Tier 3 or Tier 4 specifications. Visit neea.org/resources/hpwh-qualified-products-list for a list of qualifying models.
- This rebate is not available when installed in conjunction with a geothermal heat pump.

Natural gas tankless water heaters

- Natural gas tankless water heaters must be ENERGY STAR® certified.
- For a list of qualified products please visit energystar.gov/productfinder/product/certified-water-heaters.

Furnace

- You must install an AHRI or ENERGY STAR certified natural gas furnace with 95% annual fuel utilization efficiency (AFUE) rating or better.
- Any natural gas furnace installed with a new or existing heat pump is not eligible for a furnace rebate.

Zonal electric resistance or electric forced air furnace to ductless heat pump conversion

- Your primary and current heating system must be zonal electric resistance to qualify. This includes: baseboard, electric forced air furnace, cable, wall heater, or electric hydronic systems.
- Customers with existing natural gas forced air furnaces or natural gas boilers are not eligible.
- Your new ductless system must be AHRI Certified® as a mini-split heat pump, use inverter technology, and be a minimum of 3/4 ton in heating mode.
- It must have an HSPF of at least 9.0 or an HSPF2 of at least 8.1. For units that have both HSPF and HSPF2, the HSPF rating will be used to determine eligibility.
- With a ductless system, at least one indoor head must be installed in the main living area of the home; bedroom only installations do not qualify.
- To qualify for a rebate, accessory dwelling units (ADU) must be occupied full time, must be an additional living area independent of the primary dwelling unit (with no venting from the primary dwelling) and must include a fully functioning kitchen and full bathroom.

Electric forced-air furnace to air source heat pump conversion

- Your primary and current heating system must be electric forced-air to qualify.
- Customers with existing natural gas forced air furnaces or natural gas boilers are not eligible for heat pump conversion rebates.
- Your new traditional heat pump system must be AHRI certified with an HSPF of at least 8.5 or an HSPF2 of at least 7.2. For units that have both HSPF and HSPF2, the HSPF rating will be used to determine eligibility.
