

Manufactured homes electric space and water heat rebates

Thank you for your commitment to energy efficiency

If you have questions about the rebate application, you can:

- 1) Contact an Energy Advisor at **1-800-562-1482** Monday through Friday 8 a.m. to 5 p.m.
- 2) Review rebates qualifications by category at pse.com/rebates
- 3) Verify your home meets definition of a Manufactured Home (see definition on pg. 2)

General qualifications

- You must be a current PSE manufactured or mobile home residential electric customer. New construction, multi-family (5 or more attached units) and commercial accounts are not eligible.
- Rebate application must be submitted within 30 days of purchase. (Do-It-Yourself electric hybrid HPWHs may have up to 60 days from date of purchase to apply.)
- Rebates only available on new, qualifying equipment.
- Equipment that is replaced under warranty will not be eligible for second rebate.
- One space heat rebate and one water heat rebate per qualified manufactured home residence.
- Cannot be combined with any other rebates except where noted.
- Must install to comply with all federal, state and local code requirements.
- Rebate cannot exceed the pre-tax purchase price of any rebated product.
- Cannot be combined with rebate price-matching discounts offered by retailers.
- Equipment installed in single family homes must apply on a different rebate application. Please visit pse.com/rebates.

Fill out your account, name, address and home information

Account # (where equipment is installed)				Name (check payable to)			
Address (where equipment is installed)				City		State	Zip
Mailing address				City		State	Zip
Email address (customer/account holder)				Phone # (customer/account holder)			
Manufactured home		Yes	No	Year home was built _____		Home is a rental	Install date: _____
Space heating fuel prior to rebate		Electric	Natural gas	Propane	Wood	Oil	
Space heating equipment prior to rebate		Baseboard	Cable	Wall heater	Electric hydronic		
		Heat pump	Ductless heat pump	Forced air furnace	Boiler

Thank you for your commitment to energy efficiency

Sign the terms and conditions

I acknowledge that the product(s) described above have been purchased and installed at the location indicated. I understand that PSE provides rebate incentives for measures that are designed to save energy but I acknowledge that estimated energy savings are not guaranteed and I understand that PSE has made no express warranties or representations with regard to these products or their installation. I acknowledge that I am responsible for meeting applicable code requirements, determining the adequacy of installation, and paying all amounts owed to contractors/suppliers. Further, I understand that this is a tariffed service and is subject to change or termination without prior notice. PSE reserves the right to inspect any installation prior to rebate approval and/or after rebate payment and I agree to provide PSE reasonable access for such purposes. I authorize PSE to release my customer account information, including my billing and energy usage information, to an independent, third-party evaluator solely for the purposes of evaluating this rebate program, confirming energy savings and for other quality assurance purposes. The disclosure of your private information will comply with PSE's privacy policy and state regulation.

Manufactured home and mobile homes: factory built dwelling that includes: (a) plumbing, heating, air conditioning, and electrical systems, normally contained within the belly of the structure and within a rodent barrier; (b) is built on a permanent chassis; (c) can be transported in one or more sections; (d) may, or may not be permanently affixed to a concrete foundation.

Zonal electric resistance to ductless heat pump conversion

- Your primary and current heating system must be zonal electric resistance to qualify. This includes: baseboard, cable, wall heater, or electric hydronic systems.
- Customers with existing natural gas forced air furnaces or natural gas boilers are not eligible.
- Your new ductless system must be AHRI Certified® as a mini-split heat pump, have a minimum HSPF of 9.0, use inverter technology, and be a minimum of 3/4 ton in heating mode
- With a ductless system, at least one Indoor Head must be installed in the main living area of the home; bedroom only installations do not qualify.

Electric hybrid heat pump water heater – Tier 3

- Electric hybrid heat pump water heaters may also be eligible for additional retail or midstream incentives. Please visit pse.com/instant for more information.
- Rebate amounts may be increased if purchased from neither a participating store nor from a contractor participating in PSE's Midstream Residential Water Heating program. Please contact PSE at **1-800-562-1482** to discuss rebate options if you purchased your equipment from an online or brick and mortar store that is not participating in PSE's retail Electric Hybrid Heat Pump Water Heater Program.
- Your electric hybrid heat pump water heater must run on electricity.
- Your electric hybrid heat pump water heater must meet NEEA Northern Climate Tier 3 specifications. Visit pse.com/instant for a list of qualifying models.
- This rebate is not available when installed in conjunction with a geothermal heat pump.

Electric forced-air furnace to air source heat pump conversion

- Your primary and current heating system must be electric forced-air to qualify.
- Customers with existing natural gas forced air furnaces or natural gas boilers are not eligible.
- Both traditional and ductless air source heat pump systems qualify.
- Your new traditional heat pump system must be AHRI certified with an HSPF of 8.5 or higher.
- Your new ductless heat pump system must be AHRI Certified® as a mini-split heat pump, have a minimum HSPF of 9.0, use inverter technology, and be a minimum of 3/4 ton in heating mode
- With a ductless system, at least one Indoor Head must be installed in the main living area of the home; bedroom only installations do not qualify.
