

Preapproved Commissioning (Cx) Providers

The following commissioning professionals have been approved to deliver all of PSE’s commissioning programs for new and existing buildings. If a preferred individual or company is not represented on this list, PSE will need an application listing the provider’s commissioning qualifications for preapproval. To get approval for an individual not on the list, email PSE at: commissioning@pse.com.

PSE customers are advised to select the provider for their project based on qualifications, especially as they relate to your particular needs, building and systems.

Abraxas Energy	805-547-2050	Robert Urban
* Ameresco	206-708-2830	Jason Hite
