

Business Lighting Express

Earn incentives for lighting maintenance and small lighting upgrades

Business Lighting Express (BLx) projects are lighting maintenance installations that focus on upgrading to LED fixtures from existing fluorescent and HID lighting fixtures. BLx projects may also include the addition of new lighting controls. Typically, BLx projects are small-quantity installations of less than 30 fixtures and/or controls. Larger and full-building retrofit projects should be submitted for pre-approval through the Business Lighting Incentive (BLi) program. If you're working on a lighting maintenance project that improves energy efficiency, let us help you pay for it.

What you get

Interior and exterior lighting incentives	
LED downlight - all watts	\$47 each
LED linear – all watts	\$83 each
LED troffer - 25-50 watts	\$74 each
LED high/low bay - 50-149 watts	\$293 each
LED high/low bay - 150-200 watts	\$347 each
HID to LED fixture - 49 watts or less	\$201 each
HID to LED fixture - 50 watts to 99 watts	\$327 each
HID to LED fixture - 100 watts to 149 watts	\$441 each
HID to LED fixture - 150 watts to 399 watts	\$487 each
HID to LED fixture - 400 watts or higher	\$762 each
Troffer with integrated controls – all wattages	\$113 each
Parking garage fixture with integrated controls – all wattages	\$476 each
High/Low bay with integrated controls – all wattages	\$485 each
