

Multifamily Retrofit

Upgrades that save, savings that last

We offer rebates and grants to help make multifamily housing more energy efficient and generate long term savings.*

FREE upgrades	Free energy- and water-saving upgrades for customers who qualify
Space heat	Save hundreds on ductless heat pumps, furnaces and boilers
Windows	Up to \$30 per square foot for new windows and sliding glass doors
Thermostats	Up to \$75 back on smart, digital and line-voltage thermostats
Weatherization	Rebates on insulation and ventilation, plus up to 100% of air-sealing costs covered
Lighting	Up to 70% of common area and in-unit lighting upgrades covered
Water heat	Rebates on new water heaters for customers with natural gas water heating
Appliances	Money back on dryers and front-load washers
Custom projects	Up to 70% of costs covered for custom, energy-saving projects, such as central boilers

*You must be a current PSE residential electric and/or natural gas customer with a multifamily dwelling with at least five attached units to qualify for Multifamily Retrofit rebates and grants. Moderate income properties qualify for the highest rebate amounts, and include sites within Tribal Communities, sites built before 1986, sites with tenants that use rental assistance, and sites classified as "affordable" or "mixed (market/affordable)."
