

Incentives and design assistance available for multifamily new construction

Willdan, on behalf of Puget Sound Energy (PSE), provides complimentary whole building design assistance modeling and financial incentives to offset the cost of implementing energy-efficient strategies for multifamily new construction.

Our team of energy specialists align to your project goals and customize energy efficiency options to maximize energy savings and incentives.

When you make informed decisions on energy-efficient design options that exceed the efficiency standards of a code-constructed building, you and your clients benefit with financial savings year over year.

Contact psenewconstruction@willdan.com for more information

Benefits of participation

Lifetime energy savings

Complimentary energy design assistance

Financial incentives

Eligibility

To be eligible for PSE's Multifamily New Construction Program:

- Projects must be within PSE's electric and/or natural gas service area.
- Projects must be for multifamily use.
- Projects must be in the design or construction phase and must be pre-approved by PSE prior to all energy efficiency improvement efforts.
- Grants are only available to projects that exceed local energy code requirements and involve multiple measures.

Timing

It's a good time to engage us in your project!

The window of opportunity is narrowing

It's not the optimal time, though the MFNC1 may still be available

Unfortunately, it's too late for participation in the MFNC¹ program

Traditional Design/Bid/Build Process

PRE-DESIGN/ **PROGRAMMING** **SCHEMATIC DESIGN**

DEVELOPMENT

CONSTRUCTION **DOCUMENTS**

BIDDING

CONSTRUCTION **START**

OCCUPANCY

Fast-Track or Design/Build Process

PRELIMINARY DESIGN

COST **ESTIMATE**

CORE/SHELL **DETAIL DESIGN**

DETAILED DESIGN

EE EQUIPMENT PURCHASE

OCCUPANCY

Design decisions are underway but not finalized

The window of opportunity is narrowing

Unfortunately, it's too late for participation in the MFNC¹ program

Process

ENROLLMENT

You provide schematic information about your building through our Multifamily **New Construction** application

PRELIMINARY ANALYSIS

Together we perform real-time evaluation of energy-efficiency measures and bundle potential wholebuilding strategies for further analysis

FINAL ANALYSIS

You determine the strategies bundle that best aligns with your project goals, from which projected energy savings and utility incentives are determined

VERIFICATION

We confirm your project was constructed to plan and issue a final report for you and your utility provider

INCENTIVES

Incentives will be issued for the strategies implemented in your project
