

IMPORTANT NOTICE FOR PUGET SOUND ENERGY CUSTOMERS ABOUT PROPOSED CHANGES IN RATES

Puget Sound Energy (PSE) recently filed requests with the state Utilities and Transportation Commission (UTC) to adjust electric and natural gas Low Income Program rates. The requested changes are proposed to be effective on October 1, 2020.

An overall increase in electric and natural gas rates is requested to recover changes in costs for the low income bill-payment assistance program. PSE requested these changes through the existing low income assistance mechanism previously approved by the UTC. The mechanism allows PSE to periodically adjust its electric and natural gas rates to reflect changes in actual sales and costs. The proposed adjustments would be reflected in the Electricity charge listed on the electric statement and in the Delivery charge listed on the natural gas statement.

Effects on Residential Customers

The monthly bill effects of the rate changes for the typical residential electric and for the typical residential natural gas customer are shown in this chart. Individual customers will see a greater or lesser increase than what is shown, depending on the amount of usage. Most electric and all natural gas customers are billed monthly. Some electric customers are billed every other month.
