

Pioneer Square natural gas construction look-ahead (Week of Aug. 26, 2013)

In conjunction with WSDOT's Alaskan Way Viaduct Replacement Program, Puget Sound Energy's natural gas contractor, Michels Corporation, is relocating PSE's high pressure natural gas pipeline in Pioneer Square. Additionally, InfraSource crews are conducting natural gas remediation activities in the area as tunnel boring progresses. Below is a snapshot of construction activities scheduled for this week:

What to expect

- Michels will continue installing pipe on Yesler Way, west of Post Alley, and will also be installing pipe on Western Ave heading north toward Madison St. Paving will follow pipe laying activities.
- The second Michels crew will begin work to connect the newly installed pipe to the existing natural gas main located at the intersection of Main St and Occidental Ave. Work will include excavating, pipe laying and installing related natural gas equipment.
- Paving on Occidental Ave between Yesler Way and S Washington St is expected to be completed by the end of this week.
- InfraSource natural gas activities at 107 Spring St are expected to be completed by the end of this week.

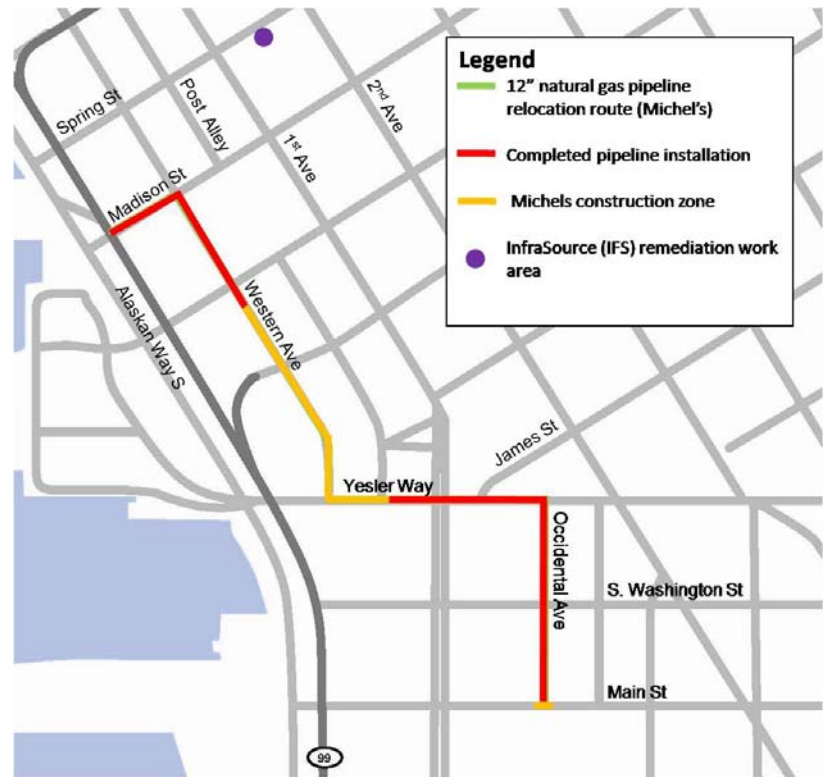

Work hours*

- Between 9 a.m. and 3 p.m. on Yesler Way and between 8 a.m. and 4 p.m. on Western Ave (Mon-Fri)
- Between 7 a.m. and 7 p.m. on Occidental Ave (Mon-Fri)
- In observance of Labor Day, crews will not be working this weekend (Aug. 31-Sept. 2)

*Work hours may vary based on location, local events and permitting requirements.

Traffic impacts

- Expect parking impacts near equipment staging areas and in construction zones
- Please follow all posted signs and flaggers
- Bikers and pedestrians should use caution when traveling in construction zones

Safety is our top priority when it comes to designing, constructing, operating and maintaining the natural gas system serving more than 750,000 PSE customers. Thank you for your patience as we work to safely relocate this vital natural gas pipeline in downtown Seattle.
