

Pioneer Square natural gas construction look-ahead (Week of Nov. 4, 2013)

Below is a snapshot of upcoming construction activities as part of PSE's 12-inch high pressure natural gas pipeline relocation and soil settlement remediation projects related to WSDOT's Alaskan Way Viaduct replacement program (see project area map below):

12" natural gas main relocation project

- *Beginning as early as Nov. 6* – AA Asphalt crews will be conducting restoration work on Yesler Way between Occidental and 1st Avenues. Parking on both sides of Yesler Way will be affected 7 a.m. – 3 p.m. The work is expected to last through Friday, Nov. 8.
- *Beginning as early as Nov. 7* – AA Asphalt crews will be working at the intersection of Main St. and Occidental Ave. The work will continue through Friday, Nov. 8. We apologize for any inconvenience this may cause and appreciate your patience.

InfraSource soil settlement remediation activities *

- *During the week of Nov. 4* – InfraSource crews will be replace service equipment near the intersection of Columbia St. and Western Ave. This work is expected to be completed early in the week; PSE trucks may be in the area.
- *Beginning as early as mid-Nov.* - Crews will replace underground natural gas equipment near the intersection of Spring St. and 1st Ave.; Crews will install temporary equipment above ground while repairs are made to permanent underground system components, and the work is expected to last approximately two to three weeks.

What you can expect*

- Paving is expected to take place between the hours of 9 a.m. and 3 p.m. Mondays through Fridays and 9 a.m. and 5 p.m. on Saturdays
- Remediation activities are expected to take place between 9 a.m. and 3 p.m. Mondays through Fridays, some weekend work may be necessary to complete work
- Work activities may entail the following, including: jackhammering, saw cutting, pavement grinding, open trenching, natural gas equipment removal and installation, trench back-filling, paving and work site restoration.

**Work hours, schedule and construction activities may vary based on location, permitting and weather events.*

Traffic impacts

- Expect traffic and parking impacts near equipment staging areas and in construction zones
- Please follow all posted signs and flaggers
- Bikers and pedestrians should use caution when traveling in construction zones

Know how to recognize, react to, and prevent unsafe conditions. If you suspect a natural gas emergency, such as a gas leak, leave the area immediately and call PSE at 1-888-225-5773 or call 911. For more information about natural gas safety, visit pse.com/safety.
