project update **NOTIFICATION** ►►►

Committed to keeping you informed

Last July, Puget Sound Energy's Tolt 16-inch natural gas line project team communicated to your community with details about the project. We've been busy since last summer, and we want to keep you informed of the progress we're making.

Here's a snapshot of what we've been up to:

- Purchased property for Phase 2 gate station site — November 2013
- Cleaned-up gate station site — May 2014
- Submitting permits — late-August 2014
- Finalizing engineering, design — on-going
- Preparing a detailed construction plan which includes access, public notifications and trail closure information (more details to follow in 2015, prior to Phase 1 construction)
