

## Wild Horse Wind and Solar Facility Tour Information

**Please review the following information before your visit.**

1. **Tour Schedule:** Daily tours are available at 10:00 am and 2:00 pm daily. Based on staff and facility availability, groups may schedule tours and presentations outside of these times. Please confirm scheduled tours and presentations at least 1-2 weeks in advance.
2. **Group Size:** In order to minimize wait time on the tours and because of limited seating capacity, please limit group size to 48. Larger parties can be accommodated, but will need to be split into several groups and plan for a longer stay.
3. **Arrival:** Please check in 10 minutes prior to your tour and/or presentation time.
4. **Facilities:** Aside from the exhibit area we have bathrooms, a conference room and kitchen (by reservation), and provide complimentary tea and coffee. You may bring your own food or arrange catering when using the conference room. Please help us reduce waste by bringing a water bottle to use and refill. See conference room accommodations for more information.
5. **Liability Forms:** The form must be signed prior to participating in the tour. Participants under 18 years of age must have a parent signature on the form.
6. **Clothing:** Closed-toed sturdy shoes are **required** for the tour. Coats, gloves, and hats are advised for tours in the spring and fall.
7. **Safety:** Hard hats and safety glasses are required, and will be provided for visitors. Young children will not be able to participate in the tour if the safety gear does not fit properly, or if they are unwilling to wear it for the duration of the tour. A safety review will be provided prior to the tour. Various hazards exist at an operating wind facility, such as inclement weather, primitive road and trail conditions, high voltage electricity, wildlife, overhead hazards, magnets, and steep terrain.
8. **Pacemakers:** Visitors with pacemakers are prohibited from entering the turbines because magnets are present.
9. **Site Closures:** Tours may be canceled due to high winds, snow, ice, heavy rains, or at the tour guide's discrepancy. A modified tour or presentation will be offered as an alternative to the site tour. Feel free to call and inquire about site conditions and closures, or check our webcam at: <http://www.wunderground.com/webcams/WildHorseWind/1/show.html>
10. **Contact Info:** If you have a schedule change, difficulty with the provided directions, or need any additional information please contact the following:
