Renewable Natural Gas

Price, terms, and conditions

Customers may choose to participate in PSE's Renewable Natural Gas (RNG) Project Services ("Renewable Natural Gas" or "RNG service") under PSE's gas tariff Schedule 138 ("Voluntary Renewable Natural Gas Service – Purchase Rider") by subscribing to Renewable Natural Gas Options ("blocks") at a rate of $5 each block per month. One $5 block will equal to 2.758 therms of natural gas and will equally replace the quantity of your conventional natural gas consumed per month shown on your bill. The total amount of your selected Renewable Natural gas blocks and credit for the conventional natural gas commodity cost will be shown on your PSE gas bill each month until you discontinue your participation. You may discontinue your participation from PSE's RNG service at any time at no cost by calling our Energy Advisors at 1-800- 562-1482, visiting www.PSE.com or by writing to the address below.

Company: Puget Sound Energy
Renewable Natural Gas, EST-10E
P.O. Box 97034
Bellevue, WA 98009-9734

Who should I contact for more information?
Call a PSE Energy Advisor at 1-800-562-1482, Monday through Friday, 8 a.m. – 5 p.m. Email us at **RNG@pse.com** or send postal mail to the address posted above.

How will I be billed?
Your RNG purchase will be listed as a separate line item on your monthly PSE natural gas bill. In addition to charges under your existing natural gas service, your monthly rate for RNG Service will include: 1) Conventional Natural Gas Credit, a credit for the conventional natural gas commodity you are replacing and 2) Renewable Natural Gas Charge, the cost for your Renewable Natural Gas purchase.

How will my bill be calculated?
Customers who choose to participate in PSE's RNG service must subscribe to a minimum of one block at a rate of $5 per month. For PSE natural gas customers under Schedules 23 and 31, each $5 block is equivalent to 2.758 therms and receives a $1.00 credit; for Schedules 41, 85, 86, and 87 it is 2.235 therms and a $0.81 credit per block. The monthly charge(s) are in addition to all other charges contained in the rate schedule under which you, the customer, receives natural gas service. The monthly charge(s) for Renewable Natural Gas will be applied to your monthly PSE natural gas bill regardless of your actual usage.

Will my rates related to PSE's Renewable Natural Gas service change over time?
Utility service rates are subject to change over time. All rate changes require approval from the Washington Utilities and Transportation Commission. Customers will be notified within one month of a rate increase or decrease applicable to PSE's gas tariff Schedule 138 ("Voluntary Renewable Natural Gas Service – Purchase Rider").

How much will my total natural gas service cost, including utility charges?
Customers who participate in the RNG service will pay their normal monthly natural gas charge plus see a line item for their Renewable Natural Gas participation ("Renewable Natural Gas Charge") and a line item for their Conventional Natural Gas credit ("Conventional Natural Gas Credit"). For example, if—in a given month—your natural charge is $53 and you have selected a $5 block of Renewable Natural Gas and receive a $1.00 credit in a given month, then your monthly charge will be $53+$5-$1=$57.00 that month.

Example
Monthly Natural Gas Cost: $53.00* (*Actual natural gas rates may vary.)
Renewable Natural Gas Charge: $5.00 Conventional Natural Gas Credit: -$1.00
Total: $57.00

You may also receive a small credit based on the number of RNG therms purchased to reduce Climate Commitment Act compliance charges.

What other fees might I be charged?
There are no additional fees associated with participating in PSE's Natural Gas Service.

What length of participation is required? If I want to terminate my participation, is there an early termination fee?
There are no commitment sign-ups or termination fees. You may discontinue your participation at any time.

What if I move, will I be able to keep my enrollment with PSE's Renewable Natural Gas service?
PSE will automatically renew participants who move to a new location within our natural gas service area.
