

Green Power

Product content label

2024 and 2025 Green Power prospective product content label¹

Puget Sound Energy's Green Power Program is sold in blocks of 200 kilowatt-hours (kWh) or matches 100% of your electricity usage. These charts provide the projected renewable resource mix in the PSE Green Power Program in 2024 and 2025.

New² Renewables in the PSE Green Power Program

Fuel	2024 - Prospective %	Prospective locations	2025 - Prospective %	Prospective locations
Wind	52%	BC, AZ, CA, CO, ID, MT, NM, NV, OR, UT, WA, or WY	63%	BC, AZ, CA, CO, ID, MT, NM, NV, OR, UT, WA, or WY
Solar	48%	BC, AZ, CA, CO, ID, MT, NM, NV, OR, UT, WA, or WY	36%	BC, AZ, CA, CO, ID, MT, NM, NV, OR, UT, WA, or WY
Biogas	N/A	N/A	1%	WA

For comparison, the current average mix of resources supplying Puget Sound Energy includes: Coal (17%), Wind (21%), Natural Gas (30%), Hydroelectric (29%), Unspecified (<1%), Nuclear (<1%), Solar (<1%), and Other (<1%). This resource mix was prepared in accordance with Washington State Department of Commerce, December 2024, with data reported by PSE in August 2024.

The average home in the United States uses 886 kWh per month. [Source: U.S. EIA, 2021]. The average PSE residential customer uses 882 kWh per month (based on 2020 data).

For specific information about this electricity product refer to the Frequently Asked Questions page, visit pse.com/greenpower, contact a PSE Energy Advisor at 1-800-562-1482, Monday through Friday 8 a.m. to 5 p.m. or email psegreenpower@pse.com.

¹The Prospective figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historic Product Content Label the actual resource mix of the electricity you purchased.

²New Renewables come from generation facilities that first began commercial operation within the past 15 years. This product includes generation from a facility that is approved under a strict set of criteria as repowered.

Starting in 2025, Green Power will no longer be Green-e[®] Energy certified. The Washington Utilities and Transportation Commission will continue to oversee Green Power and the program will be audited annually by a third party to verify the renewable energy purchased on your behalf.
