The purpose of this tariff filing is to expand the service offering of the lower monthly rate to all customers with qualifying LED lights.

The tariff sheets described herein reflect an issue date of May 8, 2023, and effective date of June 8, 2023. Posting of proposed tariff changes, as required by law and the Commission’s rules and regulations, is being completed through web, telephone and mail access in accordance with WAC 480-100-193.

**RATE CHANGES:** Due to the fact that LED luminaire and Smart Street Light Control technology is changing so quickly the Lamp and Facilities Charges may change significantly in the future. These changed charges will apply to all lights installed under this schedule. The Lamp Charges reflect the cost of energy, except for the Smart LED charges which reflect the costs of energy based on the measured kWh consumption per light. The Facilities Charge reflects the cost of future replacement and O&M costs based on industry projections and use of long-life photocells or Smart Street Light Controls, as applicable.

**LED LAMP CHARGES:** The monthly lamp charge per LED luminaire is in accordance with the LED lamp wattage listed on the following two pages.
