PROPOSED

Overall, this proposal represents a revenue requirement increase and an average increase for all customers affected by this tariff change, or a 0.46 percent increase in overall bills. A typical residential customer using 800 kWh per month would experience an increase of \$0.49, or 0.49 percent. The calculation of this revenue requirement assumed 70,000 customers taking service under Schedule 7BDR by October 1, 2024.³ Bill assistance programs are available to qualified customers who need help with their energy bills. PSE customers can go to pse.com or call 1-888-225-5773 to learn if they are eligible. Payment plans are also available.

The tariff sheets described herein reflect an issue date of August 30, 2023, and effective date of October 1, 2023. Posting of proposed tariff changes, as required by law and the Commission's rules and regulations, is being completed through web, telephone and mail access in accordance with WAC 480-100-193. Notice to the public under the provisions of WAC 480-100-194 will be provided within 30 days of the October 1, 2023 effective date. As required by WAC 480-07-885(1)(c) a copy of this subsequent filing is being served on each party to the general rate case proceeding. The filing is being served via email.

Please contact Veronica Martin at veronica.martin@pse.com for additional information about this filing. If you have any other questions, please contact me at (425) 462-3946.

Sincerely,

/s/ Birud D. Jhaveri
