PSE *PUGET SOUND ENERGY*

powerful PARTNER

Dear Neighbor,

Are you looking for ways to make a difference in our region and communities by supporting renewable energy and the environment?

Well, now until the end of 2018, your enrollment also provides a cash donation to one of the local non-profits participating in PSE's Powerful Partner program.

How it works

Sign up for one of PSE's renewable energy programs (Green Power and/or Solar Choice) and PSE will donate $10 to the partner organization of your choice.

It's easy!

- Enroll by going to pse.com/enroll and select the PSE renewable program of your choice. You can choose to match 100% of your monthly energy usage, which averages around $10 per month, or just a portion for as little as $4 a month.

- Then enter the code for the partner organization you'd like to support in the "referral code" space on the enrollment form. Once you press submit, we will make a donation to that organization on your behalf.

You've got the power

As a PSE customer, you have the ability to join the combined efforts of your community to create sustainable change that paves the way for positive impacts today and for future generations. Enroll today along with the 44,000 customers who've already chosen renewable energy and are helping our region move towards a cleaner energy future.
